Academic Integrity
Plagiarism and any other kind of academic dishonesty may result in a failing grade and may result in further disciplinary action by the university. Plagiarism is the act of presenting another person's language or ideas (intellectual property) as your own. This includes copying from your peers. You may be guilty of plagiarism if you fail to properly quote and/or cite any borrowed material. Submitting your own previously written work to satisfy an assignment for this class or submitting the same assignment to me and another instructor without permission from both of us constitutes academic dishonesty. In addition, you are responsible for protecting your own work from being misrepresented. If you allow your work to be copied and submitted as someone else's you are guilty of academic misconduct and may be reprimanded.

Course Assignments

You will be expected to successfully complete the following assignments to pass this course:

Assessment	Units	Points	Weight %
Paper #1: CLO# 5, CLO# 6	1	100	10
Paper #2: CLO #1, CLO #6	1	100	10
Paper #3: CLO #2, CLO #6	1	100	10
Paper #4: CLO #3, CLO #6	1	100	10
Paper #5: CLO #4, CLO #6	1	100	10
Midterm Power Point Presentation: CLO#7	1	100	10
Final Research Paper: CLO #1-7	1	200	20
Power Point Presentation: CLO #7	1	200	20
Total		1,000	100

Grading Criteria

The following grading scale will be used to determine your final grade:

1000 X .90 = 900-1000=A
1000 X .80 = 800-899= B
1000 X .70 = 700-799 = C
1000X .60 = 600-699 = D
<599 = F

Grade Availability
Grades will be available through the Grades tool in Blackboard.

Late Work
Late assignments will **not** be accepted. All assignments, presentations, and papers must be turned in on the by the due date. No late assignments, presentations, and papers will be accepted unless you have a documented emergency. In case of a documented emergency, contact me before an assignment is due. To get an extension due to a documented emergency, you must try to email me in advance asking for an extension and proposing a reasonable deadline for completing work (which you then must keep). Failure to contact me in advance will automatically result in a lower grade even with an approved extension. Keep in mind that technological problems happen, and you will not be granted an extension if you choose to wait until last minute. Failure to manage your time effectively is not a valid excuse for not turning in work on time even if you run into last minute computer problems. Therefore, it is imperative that you **not** wait until last minute to complete assignments.

Please remember that at the end of the semester, the course is over, and there will be no more opportunities to submit additional, extra credit, or late work.

Incomplete Grades
The grade of "I" may only be assigned if the student is unable to complete the course due to circumstances beyond the student's control that develop after the last day to withdraw from the course.

This is an intense sixteen-week course that will depend heavily on your contribution to weekly assignments, researching, and presentation.

Expectations: Yours and Mine
Student Expectations

1. Throughout the semester, I encourage you to collaborate with your peers on the content of the course.
2. You will need to keep up with your assignments, presentations, and papers. I will have assignments visible a week ahead so that you can plan ahead, however, pass due assignments will close after the deadline.
3. You can listen to the brief recorded lectures, that I have provided in each unit to assist you with clarity, context, and terminology.
4. You are expected to turn in assignments, presentations, and papers on time. Should you have a personal emergency, it is up to you to contact me and provide documentation should you want to make up work without point loss. See grading policy for late papers without prior approval.
5. You are encouraged to interact with course content, course media tools, your peers, and your instructor regularly throughout this course.
6. If for some reason you can no longer participate in this course, it is up to you to promptly contact me to explain your situation and to get the necessary paperwork completed for withdrawal.

Instructor Expectations

1. In each section, I will provide brief lectures (recordings) about the section, communicate with the entire class through Blackboard, and provide feedback about your assignments.
2. On a regular basis, I will set reminders to you throughout the semester through Blackboard "Announcements" or "Email".
3. I will email you throughout the semester to see how you are doing with comprehending the course content.
4. I will grade each assignment and send you constructive feedback within a week of the due date, using the rubrics that are tied to the assignments. If I cannot provide feedback as planned, I will let you know the new date.
5. I have designated virtual meetings from TBA for virtual office hours. If you are interested in visiting with me at that time, please let me know in advance.
6. Should you have content-related questions, let me know via email how I can help. Contact the Help desk for any questions regarding Blackboard and your computer tools.
7. I reserve the right to modify this syllabus or materials and assignments as necessary at any time during the semester to meet the objectives of this course.

Email
I normally check my email account every day, Monday through Friday. My goal is to reply to all emails within a 24-hour period. Throughout Saturday and Sunday, I may check my email occasionally, so it is imperative that you work on your assignments early enough in the week, that you can submit any questions before the weekend.

Phone Number
Email is my preferred method of contact; however, if it is urgent you can contact me at **505-454-2545**. Leave a specific message with your name, the title of this class, and call back number. I'll return your call as soon as I can.

Prerequisites or Corequisites:
The student will take the capstone course in his or her last semester at LCC.
Prerequisite: Instructor Approval

Online Preparation
Plan to spend at least as much time in this course as a three-credit classroom lecture course. A classroom lecture course requires at least three hours a week in class with approximately 3-6 hours of homework. Expect to spend the same amount of time or more in this course. Although this course is designed to be flexible, assignments are paced with weekly topics. There are also deadlines and **NO** late assignments. See the grading policy in this syllabus.

Required Technical Skills
Taking an online course requires a number of technical skills as well as other soft skills. However, at a minimum you will need to meet certain technology responsibilities to complete work for this course. If you have questions about technical requirements for the course, please contact me immediately.
To begin in this course, you must:

- Read this syllabus carefully and contact me immediately if you have any questions. You are responsible for the content and assignments in this syllabus.
- Be able to obtain access to an internet connection, preferably broadband, and a working computer for the duration of this course.
- Be Proficient with Microsoft© Office applications.
- Be able to conduct research searches on the Internet; (This is a quick link to the Luna Learning Resource Center: https://www.luna.edu/lrc/) However, this is not your only resource).
- Find resources on the Internet http://www.internettutorials.net/
- Be able to send and receive emails and email attachments in this class using Blackboard course email
- Know how to read email in Blackboard.
- Maintain backups of all work you create for this course.

Teaching philosophy
I hope that I am creating a constructivist learning environment. As a result, I will strive to cultivate a safe environment for you to discuss issues, challenge ideas, and find ways to bring policy and theory into practical application. I believe that students should be independent learners and thinkers. Consequently, your assignments were designed to be flexible and relevant to you but also reflect the objectives of this course.

4. Identify and be able to apply finance principles to a real life situation, including time value of money and its application in decision making; knowledge of capital markets and securities (debt and equity).
5. Identify and be able to apply management principles to a real life situation, including functions of management, theories of management, and leadership styles.
6. Identify and be able to apply ethical principles to a real life situation as they apply accounting, economics, marketing, finance, and management.
7. Apply critical thinking, communication skills, and information & digital literacy as they apply accounting, economics, marketing, finance, and management principles to a real life situation.

Instructor Information:
Leticia Griego
-Master in Business Administration with a concentration in Finance
-Bachelor in Business Administration with a concentration in Accounting

Modes of Communication
Announcements
I will send urgent and regular communication to all students using the Announcements tool in Blackboard. Announcements can be found on the left hand side of the opening screen under the "tool" box or in the middle of the page under "my announcements".

During the first week, you will be prompted to respond back to me by course email concerning the posted announcement. This will require you to paste my posted announcement in an email and send it back to me by course email. This is to ensure that you are familiar with getting communication with this Blackboard feature.

Virtual Office Hours (MST)
My virtual office hours will be held in the classroom portion of the Blackboard. You can access your classroom by clicking on the "VIRTUAL CLASSROOM" link on the left hand side after entering Blackboard. Below is what that look looks like:

I will be online on Monday, January 14th at 10 a.m.-11:00 a.m. (MST) to discuss the structure of this class and to meet you. After, I will hold virtual office hours on TBA and they will be recorded for those who cannot or choose not to attend. If needed to change my virtual office hours I will announce on the "Announcements". I would also love to talk with you directly at least once during the semester. If you make an appointment beforehand, I can be available at a different scheduled time via "live" virtual meeting, by telephone, or through my office hours held at the Las Vegas Luna Campus listed above. You can reach me at other times through telephone. If you use the telephone, leave a message by leaving your name, class title, and purpose of the phone call. I will return your call as soon as I can.

School of Business

BUS 295 BUSINESS CAPSTONE
SPRING 2019
January 14, 2019- May 10, 2019
Course Syllabus

Department: School of Business
Instructor: Leticia Griego, MBA
Web-site: www.luna.edu
Phone number: (505)454-2545
E-mail: legriego@luna.edu

Office Hours: TBA

Class Meeting Time: Asynchronous

Credit Hours: 1 (1 Lecture, 0 Lab)

Course Description:
The capstone course is a self-directed, integrated learning opportunity. The student will work during the course dates to complete a research paper with the course instructor as a mentor. It is the intent of this course that the student will bring to bear all the learning and knowledge from the course work to show competence in the field of business. The student will take the capstone course in his or her last semester at LCC. Prerequisite: Instructor Approval

Course Delivery Method:
This class is an asynchronous course. There is no requirement for this class to meet at the same time either in a classroom or virtually. I will, however, offer an optional virtual meeting through Blackboard during the first week of this semester. Although you don't have to attend the 'live' virtual meeting, it is a perfect opportunity to get to know one another, discuss class expectations, and ask those initial questions you might have. The first virtual meeting will be Monday, January 14th from 10:00 a.m.-11:00 a.m. (MST). Again, you can either attend at that time or view the recordings at your own pace. I will record the "live" meeting for those who cannot or choose not to attend.

While this class is 100% online and is designed to be flexible, it is strategically paced. See syllabus's course organization schedule. This course defines the week as beginning on Sunday and ending on Sunday at midnight.

Course Learning Objectives (CLO):
Upon successful completion of this course, with a minimum of 70% = C or better, the student should be able to:

1. Identify and be able to apply accounting principles to a real life situation, including GAAP and analysis of financial statements.
2. Identify and be able to apply economic principles to a real life situation, including opportunity cost, supply/demand, GDP and inflation, unemployment, fiscal and monetary policy, and elasticity, utility, and product markets.
3. Identify and be able to apply marketing principles to a real life situation, including the 4 Ps of marketing (product, price, place, and promotion), marketing strategies, target markets, and value creation.

BUSINESS CAPSTONE
Fall 2018
to
Spring 2019 Update

Improvements

- Students struggled on the first exam. Changes were made to both the next quiz as well as the review before the quiz.
  - *Format changes, as well as a review of the chapters on the test.*
- As some students did not test well, it is recommended to use both tests and presentations in class to better reflect the abilities of the class.
  - *Some students had low test scores, but performed very well during the presentation and debate.*

Conclusion

- The majority of students completed the course with a C or better (85%).
- The students who did not complete the course with a C or better stopped attending the class.
  - *Efforts to reach these students through phone and email were unsuccessful.*
- Students met the benchmarks for the CLO's, with a class average of 3.7
  - *Removing the 2 students who stopped attending, the CLO average score rose to 4.2*
