LCC to host LV Film Blitz

*Local students asked to participate;
project to enhance town’s image*

Rand Kennedy

Another film is going to be shot in Las Vegas. This one is a little different.

Lora Martinez-Cunningham

The Las Vegas Film Blitz 2011 is coming to Las Vegas this month thanks to a partnership between Luna Community College, the International Alliance for Stage Theatrical Employees (IATSE 480), Albuquerque Actors’ Studio, Eastern New Mexico University—Roswell, and New Mexico State University—

Kenneth Bachicha

Grants. The Film Blitz is planned as a four day production from April 28 through May 1.

Film blitz...

Continued from page 1

It is funded through a Carl Perkins Grant and contributions from the IATSE 480, the film technicians' union.

The film project will be a five minute music video based on the song "Don't Stop Believin'" performed by Journey/Glee, with the main shooting taking place both inside and outside Robertson High School. Additional shots that do not disrupt traffic or business operations will be taken around Las Vegas showing members of the community holding signs that say "Don't Stop Believin' In Las Vegas," "I Believe," "Don't Stop", "We Love Las Vegas", etc.

The main purpose of the event is to provide a unique educational opportunity for Las Vegas high school juniors and seniors and college students and to stimulate interest in Luna Community College's new Film Technician Training Program. The program is designed to train film technicians to work in New Mexico's thriving and growing film industry.

The project is the brainchild of Jon Hendry, Business Agent for the New Mexico film technicians' union.

"I have been involved in making movies in Las Vegas since the 1980's, and it's among my favorite locations. We are glad to help Luna and the Las Vegas community kick off their new Film Technician Training Program through this production," said Hendry.

Hendry has assembled a talented team of professional and trained film crew from the film programs at the ENMU and NMSU campuses to work with Las Vegas students on the project. Included on the team is the project director and choreographer, Lora Martinez-Cunningham

of Albuquerque Actor's Studio.

Martinez-Cunningham is a professional actor, director and choreographer. In addition to appearing opposite Denzel Washington in the Hughes Brothers' post-apocalyptic thriller, THE BOOK OF ELI, her other recent film credits include PASSION PLAY, THE UNITED STATES OF TARA, NIP/TUCK, BREAKING BAD, IN PLAIN SIGHT, Hallmark's LET THEM SHINE, Disney's LEMONADE MOUTH. She recently wrapped up the highly-acclaimed, BLESS ME ULTIMA.

Approximately four actors and 35 dancers are needed for the project. Casting calls are being held this and next week for West Las Vegas and Robertson High School students.

"To work with a talented and skilled crew on such a project as this is truly a golden and one-time opportunity," said Rand Kennedy, director Luna Community College's Mass Media Department. "I don't think even Hollywood High gets such great opportunity."

"Our primary goal is to provide a special and top quality educational experience to Las Vegas students, and to generate interest in the wide variety of jobs and careers available in the New Mexico film industry," said Kenneth Bachicha, project coordinator. "Not only will the project highlight the talents of Las Vegas students but will showcase the entire community. "We hope this event will be a great and positive experience for the students, the community, and our guests who are coming here to help us."

For further information about the Las Vegas Film Blitz 2011, please contact Kenneth Bachicha at 505/718-6497.

Hark, I see a ship in the harbor

*By Jesse Gallegos
A Different
Perspective*

Last Monday morning, Luna Community College President Dr. Pete Campos and I had what many would consider a really heated discussion. It may have been the most heated conversation I have had this year.

But in the end, we understood each other. He wants results. He wants Luna Community College to be the best it can be. As resources are becoming scarce across the state, Dr. Campos and the LCC Leadership Team want Luna Community College to continue to excel.

Although, it may surprise you that Dr. Campos was so passionate, it was timely. He wants the best for this college and its students, and I along with many employees, perhaps haven't given the best of efforts.

I don't want you to think it was a one-sided conversation. It wasn't. Anyone that knows me, understands that I pride myself in being well-versed and articulate when I have to be.

But I will be the first to tell you that this college is fortunate to have Dr. Campos as its president and very fortunate to have him as a state senator. Knowing him over the last three years, I believe he probably puts more time than any other individual in trying to secure a solid future for northeastern New Mexico.

Many of you may question me. But I am a realist. Like most of my life here on earth, my true attitude has gotten me into trouble. I told Dr. Campos how I felt about things. And although I thought I was in the right, the

Hark, I see a ship...

Continued from page 5

fact is he is the president of this college and he deserves the respect that comes with it.

Our conversation was short and deliberative, but yet it may very well serve as a prelude to the future of this college.

He used me as an example of why the college has not reached the expectations he has wanted to reach. I understand that. I will be the first to admit that I am not the best of employees. But my argument was that I am one of the individuals that believes in the mission of this college.

Again, it is clear that Dr. Campos and his leadership team want this college to excel—and they want it now.

I haven't worked in many places, but I can say with an honest heart that Luna Community College is the best place I have ever been employed at. And the most important aspect, is its students. They are special.

It is clear that Dr. Campos wants us to do the following.

- Put our students first
- Implement only a 6.5 percent increase in student tuition or about \$2 a credit hour.
- Have a vision for our future
- Move forward
- Overcome funding shortfalls
- Remain optimistic
- Build a can-do attitude

- Get our current students not to overwhelm themselves with spring fever
- Get our students to excel with A's and B's in their finals.
- Get past the pettiness.
- Get all of us to think and believe about the future of Luna Community College.
- Inspire our students.
- Build the best people for life.
- That Luna Community College will continue to strengthen its educational programs.
- For the college to continue working on bringing jobs to the region.
- For the college to do everything it can to absorb the increase in its employees retirement plan.
- For the college to continue to meet with educational, city, county and civic leaders.

Here are my thoughts.

- As a college we need to continue to inspire our students.
- I really think our athletes need a special inspiration. They are student-athletes. They are students first. To those students that read this, your athletic ability is important. But take advantage of our college. Get your education while you are here.

•I appreciate the fact that Dr. Campos and the LCC Board of Trustees have come out with a plan to raise students tuition a reasonable amount. The latest I hear is 6.5 percent. Many colleges have increased it much higher than this.

•To Dr. Campos' credit, even though I am not in the best of situations with him, has told me that he does not want to institute any furloughs. That is really cool. When I say this, I hope I am not offending anyone but I know many of us live check-to-check. Smile if some of you do the same thing.

•However, every indication out there is that there will be more significant unification and stronger focus on the college's message. I really believe that several departments will combine their talents. My guess is that this will take place in June. Expect some cross-training.

On a personal note, I recently started on a screen play.

Let me share with you the first line."Hark, I see a ship in the harbor."

It is about seven people that left Hawaii on a small boat and landed on a deserted island.

Okay, it is the same theme of Gilligan's Island. But a column such as this serious one you just read, deserves some kind of reservation for calmness.

Until next time.

The Luna Community College Summer Class Schedule is available to view online at www.luna.edu. Hard copy schedules will be available later this month.

“I do not want furloughs; I want to build on people's lives,”—Dr. Pete Campos.

Pecos Smart Lab

In collaboration with the Pecos Independent School District, Luna Community College has a computer lab in the community of Pecos. Located in the Kindergarten Center near the Pecos High School campus, this 18 computer "Smart Lab" provides Pecos High School students taking LCC online courses through the LCC Dual Credit/Concurrent Enrollment program, as well as other LCC students that live in Pecos, a place to attend their online class.

The lab itself, which was paid for through Federal Title V funds, has 18 new computers with wide screen monitors, a presentation computer with interactive whiteboard for training purposes, and a high speed network that connects the lab directly back to the Luna Community College network. This network connection will allow for students in Pecos to access all of the computer resources available to students on the main campus in Las Vegas.

Use Microsoft Office from home!

By: John Tiernan

Many classes at Luna Community College require the use of some Microsoft Office Suite product. Whether writing a paper for a freshman composition class, doing a spreadsheet for an accounting class, or developing a PowerPoint presentation for any number of classes, it is almost a guarantee that students will be required to use Microsoft Word, Excel, PowerPoint, Publisher, or Access at some point as a student at LCC. The skills gained by using these products are invaluable in the workforce. However, Microsoft Office Suites can be expensive and by the time a student graduates from college, the software bought will probably be outdated. Now, LCC students have access to Microsoft Office Suite, free of charge, from anywhere. To have access, one must be an LCC student, have internet access and have a computer.

Title V-Distance Learning has developed Remote Desktop Services (RDS) which allows for students to access Luna Community College resources from any computer with Internet access 24 hours a day, seven days a week. All that is needed for an LCC student is a username and password. It is the same username and password used for student e-mail, online classes, online registration, checking grades, etc. Students that do not have a username and password can create one by going to https://luna.edu/create_student_account/ and filling in the information requested.

To connect to the Remote Desktop Services, use the Remote Desktop Connection software that comes with any Microsoft Windows operating system (XP, Vista, 7) and connect to the 63.230.102.3. Mac users can download a free Remote Desktop Connection software from the Internet. For an instructional video which outlines the process in its entirety, the website is <http://mediaserver.luna.edu/RDS/>.

Once connected to the remote server, the Microsoft

Office shortcuts will be visible on the desktop of the remote computer. Files can even be saved on a local flash drive or to a student z: drive. The z: drive is a personal storage space available to all LCC students and can be accessed from campus computers..

For more information or support, please contact John Tiernan at 505-454-5343 or e-mail him at jtiernan@luna.edu

Shown above is an actual image of a computer connected to the LCC Remote Desktop server.

Online financial aid to be pilot tested this summer

Starting this summer, students will be able to check their financial aid status online. Title V will pilot test the new online financial aid system over the summer semester. This system allows for students to apply for financial aid through a link to the Free Application for Federal Student Aid (FAFSA). It also allows for tracking the documents needed to complete the financial aid process, and view financial aid awarded.

Once the pilot test phase is complete, students will be able to check this information anytime from anywhere. This is an additional feature that is being added to the Pathways-Student Services Website. To try it out, students can go to <http://pathways.luna.edu>. Once logged-in, students can click on the "Financial Aid" tab on the top of the page.

The system is still being tested and if there are any issues, please report them to John Tiernan at 505-454-5343 or e-mail at jtiernan@luna.edu.

Point-To-Ponder

"We keep moving forward, opening new doors, and doing new things, because we're curious and curiosity keeps leading us down new paths."—Walt Disney

Letter from Patricia Romero

Hello and a good day to you all. Luna Community College is scheduled to provide a student/parent orientation at Pecos High School for incoming juniors and their parents on Wednesday, May 4, at 5:30 p.m. in the Pecos High School Auditorium. PHS has a new principal and counselor this year. They are very motivated and are working very hard to get the parents and students to attend. fall 2011 will be the first semester these students will attend LCC.

We will have the cafeteria set up again for information booths for each of your respective areas.

We can work LCC transportation once I have received confirmation from each of you in regards to your attendance.

Thank you in advance. Please provide your confirmation by Tuesday, April 19, so CE/DC can proceed with PHS regarding the planning process for the orientation.

Patricia Romero

Springer Collaboration

By Lawrence Quintana

The purpose of this article is to provide the reader with a written perspective on the collaboration taking place at the Luna Community College Springer Satellite to extend education throughout their service area in northern New Mexico. The Springer Satellite annual strategic plan was submitted a week ago and is reflective of the collaborative efforts being conducted between the Springer Satellite and surrounding communities meetings were held during March with high schools and community members in Maxwell, Cimarron, and Springer.

Pre-planning the courses for fall 2011 and identifying student educational needs prior to the summer break, allows both LCC and the high schools to make adjustments and provide students with course delivery opportunities early

Providing a diverse approach which includes on-line pre-requisites for nursing, vocational courses consisting of basic residential wiring, welding cabinet making, mass media and other courses to enrich the educational delivery in the area has proven to help students prepare for the changing work environment or planning which a four-year institution will best serve their educational and

Students from high school healthcare career pathways.

Welding Instructor Art Arguello with Springer High School students.

career goals.

Challenges that face New Mexico colleges in rural areas are providing affordable education through collaborative, effective, and efficient operational management. In order to continue to deliver on-site education, resources and facilities must be coordinated throughout the region. This means teaching courses utilizing facilities at various locations to achieve a viable cost per student ratio. With this approach coordination between Springer, Mora and Santa Rosa Satellites with input from surrounding high schools is critical. Online delivery is also crucial and must be used to fill gaps that help complete the delivery of a diverse course offering. The satellite directors at Springer, Mora and Santa Rosa must conduct outreach and participate in economic development of their perspective communities which include outlying towns and villages that depend on each other for a consolidated economic development approach. Luna Community College will continue to research, align and enrich the cooperative approaches used to maximize resources in our rural communities.
