Becoming The Premier Rural Community College in America*

Volume 4 Issue 29

August 1-August 7, 2011

## NATIONALLY ACCREDITED A great step forward for Luna CC Nursing Program

The Luna Community College Nursing Program learned this week that it has earned national accreditation by the National League for Nursing Accrediting Commission. It is the first time in the program’s history that it has this distinction.

Luna Community College nursing graduates can now apply for employment at any health facility including government hospitals. They have not been eligible for VA hospitals or the like prior to this time. There are also institutions of higher learning that do not accept RN-BSN students from an unaccredited program. All of these barriers have been removed.

**Luna Community College Allied Health Director Connie Reichert addresses the LCC Board of Trustees on national accreditation recently. Luna Community College received news last week that it has earned national accreditation by the National League for Nursing Accrediting Commission.**

“This is a great step forward for Luna Community College,” said LCC Nursing Director Connie Reichert. “Being nationally accredited helps our community by ensuring that our program trains quality nurses and in turn provides for better patient care. It also helps our nursing program to have equal status in nursing representation by showing that the program has both quality and rigor and helps the students to be able to have all nursing

opportunities open to them, whether it is in education or in employment.”

Continued on page 4

Luna Community College students, faculty, staff and community, a Rough Rider Meal Card is now available. The Rough Rider Meal Card can be purchased at the LCC Fiscal Office. For more information, call LCC Food Services Manager Paul Sandoval at 505/454-2581.

### FIRE SCIENCE

- Are you interested in becoming a firefighter?
- Are you currently in the fire service and want to improve or enhance your skills and credentials?
- Do you want a degree in higher education as well as a stepping stone to additional studies at the baccalaureate level?

If you answered “yes” to any of these questions, then the Associate Degree in Fire Science at Luna Community College is right for you.

Fall Registration is Now Taking Place Classes start August 22

# Luna: Light at the end of the tunnel

By Dr. Pete Campos

What a phenomenon: Luna Family members continue to achieve certifications, accreditations and new levels of achievement all focused on student success. While some may say, “Hey, we aren’t Harvard, Yale or Cornell! I say, we have never tried to be, but we are Luna Community College and we’re gearing up to serve every student who chooses to come here – *regardless of their point of origin!* We want to prepare them for the world of work so they will make top wages to raise their families comfortably and have significant purchasing power.”

I see more PhD’s and Masters level instructors joining our full-time and part-time faculty – they are staying at least one page ahead of our students; I see our maintenance and custodial staff working alongside each other to maintain and beautify our campuses and classrooms *like never before*; I see the Leadership Advisory Team (LAT) – our heroes and visionaries - provide high levels of experience, resolve and sweat equity to ensure national accreditation and rigorous standards to best serve the growing needs of **OUR** students; I see support personnel keep pace with scholarship compliance, efficient office management and the highest level of professionalism for the vital delivery of educational and basic functional operational services; and, I see our Luna Family rising to new levels of providing excellent higher education services that others across the country have recognized and frankly, are emulating. We are in education to share governance and ideas to best serve students. *We are doing this unselfishly and with a genuine free-spirit to better educational, athletic and extra-curricular endeavors that benefit students and their college experience.*

**LCC President Dr. Pete Campos (far left) along with Vice President for Instruction Dr. Vidal Martinez recognize several National SkillsUSA participants. Pictured are Marcia Garcia, Crystal Rae Martinez, Gary Gamertsfelder and Gilbert “Guba” Martinez.**

One or two persons have said to me: “We are Norteños, we are mellow, proud of where we come from and unique!” *Yes – I wholeheartedly agree*, we are Norteños, yes we are proud of where we come from and yes we are unique but we (the Luna family) will hold true to our commitment and prepare our students to be the best they can be because **they are thirsting to competently compete for real jobs both locally and globally.** So to those who believe in the status quo, mediocrity or complacency – take notice – our students deserve the best we can offer – **AND WE WILL OFFER THEM THE BEST WE CAN - FOR THE SAKE OF THEIR WELL BEING AND THEIR FUTURE.**

I love, admire and respect our students for choosing to learn and make a positive difference

in their lives. Our students are single parents, young couples with small children (driving to school in an older model used car), carrying backpacks and making their way up Hot Springs Boulevard on bicycles and wheelchairs. **What dedication, devotion and commitment to their future!** I respect our students willpower, tenacity and professional persistence to sacrifice, reach-out to learn and someday earn a job that is satisfying, hard earned and pays a salary that will provide them self-worth and self-esteem.

Many of you who read this article are already working, established and have or are raising your families. I am grateful that you have achieved a comfort level in the world of work and survivability. It is crucial that we share our personal success and unselfishly help all LCC students attain a similar level of success that we are now experiencing and enjoying.

I wholly and regularly pray, strongly believe and share extraordinary passion with others in hopes that we can collectively believe and deliver a direction to our LCC students so they will someday achieve the goals we have set for ourselves and our families.

I love engaging our students as they struggle and endure to reach their aspirations. Please set aside our past differences and move forward to nurture our students so they will keep their hopes and dreams alive for a more fulfilling life. *Ultimately, our moment will arrive when we – personally and individually - will be held accountable for our feelings and attitude towards others. Let’s prepare the next generation of learners to take our place as movers and shakers.*

## Jesse’s quick hits

Remember to smile a few times a day. I hope this helps—Jesse

back and a guppy?

*A whale of a difference.*

*They tell fishy stories.*

What’s the difference between a hump-

How do whales stretch the truth?

Why do fish avoid computers?

*They get caught in the Internet.*

## ON-LINE COURSES FAST FACTS:

LCC is currently offering approximately Sixty (60) On-line courses during the Fall 2011 Semester

Don't Be Left Behind!  
Register Now for Best Selection  
Classes start August 22, 2011

**Registration Options:**  
Main Campus, Las Vegas, NM  
Santa Rosa Satellite, Santa Rosa, NM  
Springer Satellite, Springer, NM  
Mora — Course Location, Mora, NM  
On-line — www.luna.edu

**Cost:**  
Distance Learning Fee: —  
\$25 per course  
  
Tuition Fees (per credit hour):  
\$35 in-district  
\$48 out of district  
\$91 out of state  
  
\$23 Registration Fee

### On-line Courses:

Accounting	Freshman Comp I & II
Intro to Anthropology	Business Ethics
Cultures of the World	Art History
Medical Terminology	Nutrition
Intro to Business	Microsoft Access
Computer Fundamentals	Equine Genetics
Principles of Finance	College Algebra
Prin of Macroeconomics	Microsoft Excel
Curriculum Development I	American History I
American Literature I	Western Civilization I
New Mexico History	General Mathematics
Algebra with Applications	Intermediate Algebra
Principles of Marketing	Family Nursing II
Mental Health Nursing	Adult Nursing I
Business Writing	Human Sexuality
Intro to Philosophy	Intro to Psychology
American Nat'l Government	State & Local Gov't
Developmental Life Span	Abnormal Psychology
Developmental Reading	Intro to Sociology
Beginning Spanish I	World Religions
Interpersonal Communications	
Intro to Agriculture Economics & Business	
Child Growth and Development	
Military Professionalism	
Intro to Military Literature	
Military Leadership Theory & Practice	
Pharmacotherapeutic Interventions III	

Visit the website for a complete listing of times and dates of courses offerings

## BACK TO SCHOOL

Join

## Weekly Activities

### Monday, August 1, 2011

10:00 a.m. – 3:00 p.m. *Semillas de Salud Training (LCC Springer Site/ Forrester Bldg.)*

5:00 p.m. – 8:00 p.m. *Dare To Be You Substance Abuse Prevention Program (General Studies/102B)*

### Tuesday, August 2, 2011

5:00 p.m. – 8:00 p.m. *Dare To Be You Substance Abuse Prevention Program (General Studies/102B)*

### Wednesday, August 3, 2011

8:30 a.m. – 12:00 p.m. *SLOA Presentations (LRC/Lecture Hall)*

5:00 p.m. – 8:00 p.m. *Dare To Be You Substance Abuse Prevention Program (General Studies/102B)*

### Thursday, August 4, 2011

7:30 a.m. – 12:00 p.m. *LCC Student Orientation (IPC/Café, Allied Health/LO-1, LRC/Lecture Hall, & Admn./SMET Auditorium)*

8:00 a.m. – 7:00 p.m. *LCC Student Orientation (Student Services/ Conference Room)*

5:00 p.m. – 8:00 p.m. *Dare To Be You Substance Abuse Prevention Program (General Studies/102B)*

6:00 p.m. – 8:00 p.m. *Jin Shin Jyutsu /Community Ed. Course (IPC/ Cafe)*

### Friday, August 5, 2011

1:00 p.m. – 7:00 p.m. *Phi Theta Kappa Officer Retreat (General Studies/104&112)*

5:00 p.m. – 8:00 p.m. *Dare To Be You Substance Abuse Prevention Program (General Studies/102B)*

### Saturday, August 6, 2011

8:00 a.m. – 6:00 p.m. *Phi Theta Kappa Officer Retreat (General Studies/104&112)*

# LCC: "The People's College"

# LCC Nursing Program...

Continued from page 1

The accreditation is retroactive to January of this year, therefore, the 50 LCC nursing graduates this past May fall under the nationally accredited program.

"This has been quite an endeavor by the department," said Reichert. "I put the accreditation process on the top of my priority list when I became director in September of 2006. We as a faculty initially worked on the process of accreditation by attending the self study forum and writing the candidacy report which was approved March 2009."

After candidacy status was achieved, faculty contributed in the writing of the self study document in theory; however, most work was done in the year of 2010. During the spring of 2010 all faculty members were assigned their sections to write of the document and then others would review.

"When we did the standard 6 evaluation piece (outcomes), faculty members were assigned other sections that they hadn't been assigned to prior," said Reichert. "We met as a faculty every other week to go over the document during the fall of 2010 semester. Then in early spring of 2011, we all reviewed everything and met more frequently including the Saturday before the site visit so all of the questions that we anticipated had answers fresh on our minds. We had a reviewer that helped guide us in the fall of 2010. Our self study document with appendices was 168 pages."

The board of commissioners' next evaluation visit is for spring of 2016.

"Many things happened during this process," said Reichert. "We were able to articulate all aspects of our nursing program and to look at assessment evaluation pieces necessary to improve student outcomes as a faculty.

The process also helped to develop a team in having such a grand project to accomplish as a group. We also found deficiencies in our program that we were able to correct to meet

standards—all as a part of the process. We got all of our documentation organized. The site visitors that were on campus February 15-17 were exacting in their requirements and complemented our team on our organization and thorough documentation. Our allied health staff did so much for the process as well as faculty. We are indebted to everyone in the department. Accreditation was an arduous process and took thousands of hours all totaled but today upon hearing of the out-

program is an excellent program," said Reichert. "I feel that we are implementing quality education both in the classroom and in the health facilities where our students do their clinicals. We thank the community for that. With accreditation, we have helped our students tremendously in their own pursuits."

So what does Luna Community College have to do to keep its accreditation?

"Every day continues to be the preparation for the next NLNAC site visit in spring of 2016," said Reichert.

**"Every day continues to be the preparation for the next NLNAC site visit in spring of 2016. We must continue to meet the standards of the accreditation body. We have just shown to others the quality of our program,"—LCC Health Sciences Director Conni Reichert.**

"We must continue to meet the standards of the accreditation body. We have just shown to others the quality of our program. Our next site visit for evaluation will show that we are in keeping with the NLNAC standards that have already been achieved."

come, it has been worth it."

Luna Community College has graduated LPN and RN nurses to now reach an average of 70 nurses annually—the majority of them work in New Mexico hospitals. A typical week for a nursing student at Luna Community College includes two clinical days, two days of class work (one class in the morning and one in the afternoon) and one day off, which is widely used for studying.

"If you are a nursing student, you have to study; if you party, you're not going to make it," says Reichert.

A typical clinical day has an 8-1 nurse to student nurse ratio. At Luna Community College, faculty doesn't just stress the theory and practical aspects of nursing, they advise students to care about the patient.

"It's important that nurses have warmth and concern," said Reichert. "The best nurse cares for their patient with compassion and understanding."

The college's licensed practical nursing program (LPN) had its first graduates in 1970. The registered nursing program (RN) began in 1978.

"Personally, I think that the LCC nursing

At Luna Community College, a student has to take two semesters of pre-requisite courses, two additional semesters for their LPN certificate and two additional semesters for their RN certificate. After successful completion of the program of study, a nursing graduate has to apply to take the National Council Licensing Exam (NCLEX) to become licensed.

"Like the rest of the nation, we are in desperate need of nursing faculty," said Reichert. "We at Luna must look seriously at salary increases to retain and recruit quality instructors. The NLNAC standard is for full-time faculty to have masters' degrees. We cannot stay viable in these economic times or in any times without providing salaries to nursing faculty that are equitable to the entry level nurses salaries that we produce. The nurse faculty median age is rising. In order to stay viable we are going to have to have the teachers."

The majority of Luna Community College students are from northeastern New Mexico.

For more information on the Luna Community College Nursing Program, you can call 505/454-2521.

# LCC FOUNDATION SCHOLARSHIP GOLF TOURNAMENT

(Over \$50,000 raised for Title V in 2010)

Played at the beautiful **Pendaries Golf Course**  
*On August 27, 2011*

LCC Foundation provides scholarships for financial assistance to more than 300 deserving and successful students, receiving generous donations for fundraising efforts that support the future of Luna Community College students. We are a non-profit organization that has a board of trustees that consists of 9 members. These members are dedicated to the students at LCC by organizing fundraisers such as our annual golf tournament, to assist the students with the financial assistance that they need.

## ENTRY FEE: \$1,000 a team

INCLUDES GREEN FEES & CART, FAMOUS PRIME RIB DINNER AND FABULOUS PRIZES

# What makes a good college student?

## *LCC student Nannette Selph shares her views*

*The following article was written by Luna Community College student Nannette Selph in Jacqueline Hampleman's freshman composition class.*

**By Nannette Selph**

Many students new to college do not know what it takes to be successful in a college environment. They understand good and bad grades in a general way and they sense they should attend classes regularly, but that is where their knowledge begins and ends.

Coming back to college now as a mother, I have experienced certain obstacles on how to be a good college student. I have had to read-just my time being that I have four kids in school. So having to relearn time management skills did not come easy at first but with practice and much patience I have got it down. My motivation for college comes from my heart because my goal when I finish with school is that I will become a registered nurse working in the emergency room at the hospital and be a great nurse as well. Self discipline—I have had to learn to give up a social life to avoid any distractions that will keep me from my learning experience. As a college student, I knew the basics of college, but now I know the key to success.

Throughout your college years you will have to make many choices which could become opportunities. If you are a student do not allow yourself to be burdened with problems, there are the challenges you must overcome.

In the beginning, train yourself to put time and energy into your challenges and not into complaining even if it means you must adjust your attitude and retrain your thought process. College is a competitive environment; in order to succeed you must obtain certain skills which can only be learned through experiences. There are five basic rules that need to be followed in order to become a good student such as being able to study, attend class regularly, develop self-discipline, learn time management and stay motivated. In this essay, I will give a detailed analysis of those different steps and how they will be defined.

First, a good student has to study every day. Studying involves reading textbooks, understanding what you are reading, being able to explain it to others, and most importantly memorizing the key concepts for the class. While studying, students should find a quiet place such as the school's library, cafeteria, or even at home in the bedroom as long as there are no distractions. Let people know that you may need at least one hour to study. That way, no one will attempt to disturb you. During this quiet time do the assigned readings as well as the assigned homework. Studying includes doing all of the homework and assigned readings. When students say they are studying, most of the time they are making up for a previous failure of learning the material. Ideally

there should be no need to study outside the classroom, at least in the sense of relearning the material you did not learn the first time.

The next way to succeed in college is to attend class regularly. Two main important reasons for this are so it will help in learning the material and getting familiar with the instructor. Knowing the instructor is very important because he/she can help you prioritize what is needed in the classroom or what is needed to study for tests. Attending class regularly is important to help ensure that you do not miss anything. If you do not get the proper amount of instruction in a specific topic, you may have difficulty writing your next case study analysis or even passing your next exam. Keeping up with the business of school curriculum is difficult enough as it is. There really is no sense in making it harder simply because you did not feel like attending class that day.

Thirdly, building good self-discipline will help you adapt and increase your chances of success. In order to start developing the self-discipline so vital for success, there are a few practices

**Attending class regularly is important to help ensure that you do not miss anything. If you do not get the proper amount of instruction in a specific topic, you may have difficulty writing your next case study analysis or even passing your next exam.**

you need to adapt to your learning such as using your time wisely, keeping up with the deadlines of homework and assignments, and most significantly you need to develop a habit for patience. Incorporating these practices can help you develop the self-discipline you need to adapt to a new academic environment. While study tips will of course help on the path to success, nothing beats good old fashioned self-discipline. Self-discipline is vital when you are prioritizing things. This is where you can decide to spend time with your friends or study with your books for the next day's exam. Self-discipline is one of the most important tools for proper time management. This will keep you from doing unwanted things which could lead you to cramming.

Many students discover the need to develop time management skills when they arrive at college. Developing effective time management as a college student is critical to your academic and social success in college. Managing "self" is the key to developing effective time management skills. What this idea refers to is that effective time management skills will often revolve around improving one's own personal performance. That simply means eliminating bad habits such as procrastination. Also any external distractions need to be eliminated for example de-cluttering your notebook, your study time, having no visitors or no phone calls. Organization helps to reduce the time you are usually looking for things you might need. Again any other interference to effective time management needs to be addressed if you are going to have any kind of success. Always be patient with the development of these skills. Organize your time by writing and planning upcoming as

-signments and test dates. Organize your days so that they are predictable and scheduled. Organization entails more than keeping a calendar. It requires identifying your obligations, carefully considering their importance and making choices about how to use your time wisely.

Motivation is considered to be the most significant factor for determining success or failure in college. Students with greater motivation will really push themselves and learn as much as possible for the time and money spent on their college education. A good student is one that asks questions when others do not. In fact a good indication of a good student is when one puts up their hand and throughout the classroom there are moans and groans. A good student takes advantage of every opportunity they have

**Motivation is considered to be the most significant factor for determining success or failure in college. Students with greater motivation will really push themselves and learn as much as possible for the time and money spent on their college education.**

to learn, advance, and achieve a better grade. They also listen to negativity and use it constructively to better themselves. Successful students who are motivated to achieve, also seek assistance from professionals.

Good students go above and beyond what they are expected or what others are doing. I think a good student comes to school each and every day prepared to learn. They have to be devoted and know that time is required to study. Being prepared, attending class, being an

active student by asking questions whenever something is not clear to them, and motivation are all part of being a successful student. Having a clear understanding of the material and being able to explain it to others is the goal.

# Luna CC has 36 GED graduates

By Geraldine Romero

Our Adult Basic Education (ABE) Program's objective is to provide instruction in the basic skills of reading, writing, and mathematics to adult learners in order to prepare them for transitioning into the labor market or higher academic or vocational training.

According to Congressman Ruben Hinojosa who sponsored the Adult Education and Economic Growth Act of 2011: "If we are to remain competitive in the global economy, we must invest in high quality adult education and workforce training programs that lead to family-sustaining jobs in careers with the promise of advancement and post-secondary education. Education and training will keep America's economy on the rise." Therefore, our program, along with other programs, is crucial in keeping pace with the skills needed in today's workforce. Without high school diplomas and, consequently, without a postsecondary education, our American workers drop out of the middle class and inevitably the future growth of our economy is weakened. Education is the key to success, and hopefully, our programs are the engines that drive our students to a better future, and an educated workforce may be the fuel that is needed to strengthen our economy.

Our program is an evolving program that is responsive to the changing needs of our student population and communities. Every year, our program identifies opportunities for improvement and implements appropriate changes in order to improve on our quality, teaching effectiveness, and mission fulfillment. We are committed on handling whatever the challenges and opportunities the future has to offer.

The ABE/GED Program at Luna Community College would like to congratulate our **36 2010-2011 GED graduates**. We would like to express our joy in their well-deserved achievement. Their achievement has been made possible through their determination, perseverance, and dedication. We are proud of you and commend you on a job well done. Good luck and good wishes as you progress along life's path. We will continue to watch your achievement with interest and pride.

The following students have attained their GED in 2010-2011:

## LCC CAMPUS

Amber Baca	Antonio Maestas	Amor Romero
Joseph Crespin	Jessica Marquez	Veronica Sanchez
Kayla Gonzales	Anthony Martinez	Jaysie Silva
Olivia Gonzales	Miguel Angel Montoya	Julie Ann Silva

Kassandra Herrera	Stephen Mora	Julie Silva
Steven Herrera	Amanda Perea	Naomi Varela
Nathen Johnson	Ashley Pitrucha	Adelaida Vigil- Gutierrez
Edward Maes	DeAngelo Rodriguez	
Daniel Maes	Alexandra Romero	

## MORA SATELLITE

Javier Gurule  
Dylan Martinez  
Gloria Romero

## RATON SATELLITE

Brandy Carrasco	Manuel Romero
Kimberly Kaplan	Chavonne Valle
Alexis Rogers	Hector Verdin

## SPRINGER SATELLITE

Dennis Benavidez  
Joshua Mckinly
