LCC students write story on 100-year anniversary of Titanic

The sinking of the *Titanic* happened 100 years ago this week. Because of its 100th anniversary, our developmental reading online class has taken time to read and research the facts that developed through the years. We chose to give the *Titanic* attention once again in class as the world did 100 years ago. Some students have volunteered to share their findings in the following summaries. Most of our research was done through the internet at www.titanicuniverse.com and www.titanicaencyclopedia.org. While there is so much information on this tragic story, we hope you enjoy our discoveries and take time this week to reflect on those lost. While I had the opportunity to see the *Titanic* exhibit in Houston last week, it was brought to my attention that in 40 years the *Titanic* will completely disappear on the ocean floor due to erosion and settlement. With this awareness, it makes any information even more significant to appreciate now before it's lost forever.

Jacqueline Hampleman
Instructor

The following is part of a story written by Piedad Valencia. For more of the students' articles, see Monday's Luna Light.

The Story of the *Titanic* and Its Survivors

By Piedad Valencia

The *Titanic* was the world's largest ship ever made. It was 883 feet long and weighed 52,310 tons. It cost 7.5 million dollars to build back in 1912. It was the largest ship ever, and was supposed to be unsinkable. On April 10, 1912, it set sail from Ireland and was supposed to go to New York. It carried on board 2,240 passengers and crew members. The ship hit an iceberg and began to sink on April 14, 1912 around 11:30 pm. A little after an hour of the incident is when they started evacuation. The rules to the evacuation were women and children first. Even though this was the rule, a majority of the people found dead were women and children.

Student Government Office Hours

<u>Member</u>	<u>Day and Time</u>
Joanna Tsyitee, President	Mondays from 12:15pm – 1:30pm
Joelynn Sanchez, Vice-President	Tuesdays from 8:00am – 9:00am
Shannon Saiz, Secretary	Fridays from 9:00am – 10:00am
Ben Casey Encinias, Treasurer	Wednesday from 3:00pm – 5:00pm
Danielle Archuleta, Senator	Fridays from 10:30am – 11:30am.
Diane Carrillo, Senator	Tues/Thurs. from 1:00pm – 3:00pm
Richard Flores, Senator	Thursdays from 10:00am – 11:00am
Tyler Piña, Senator	Wednesdays from 9:00am – 10:00am

Student Government office hours provide the perfect opportunity to ask questions or share an opinion. We are located right next to the Registrar's Office in room SS-104.

Open meetings
will be held on
the dates below
at 11:30 am in
the LRC.

- February 24th • March 9th • April 20th • May 4th

Accountability. Advocacy. Affordability.

Ron Gonzales wears many hats at Luna Community College

Luna Community College's Ron Gonzales does a little bit of everything including leading the physical plant and the athletic department.

This is the second in a series of interviews with department leaders at Luna Community College. The following interview is with Physical Plant and Athletic Director Ron Gonzales.

What departments do you oversee?

Departments under my supervision include:

- Physical Plant which includes: General Maintenance, Custodial, Technical Maintenance, Transportation, Life/Safety, Security, Capital Projects, Facility Usage
- Athletics which includes Baseball and Softball
- Learning Resource Center
- Mora Area Liaison

How long have you worked at LCC? In what capacity?

I began my career at LCC in 1995 as Technical Maintenance Supervisor. In 1999, I became the Physical Plant Director. In 2001, I was assigned to be the Trades Director. In 2004, I was reassigned back to the Physical Plant as Director of Facilities. In 2010 I assumed oversight of the Learning Resource Center, Mora Area Liaison and became Athletic Director while still being Director of Facilities, these still remains in place to date.

What is your typical day like?

With this position there really is not a typical day. There are routine duties that are performed every day but every day has different situations or events that we deal with.

What are your primary duties?

The position I hold oversees all maintenance programs and facilities of the college and satellites. Along with the duties of the athletic director which is to oversee all athletic activities of the LCC sports programs, which includes visits with other colleagues from other institutions, coaches, students, parents, media and the public in general .

Where do you see yourself and your departments in five years?

There are various goals that we at the departments have set and look forward to attaining in the next five years. These goals are attainable if all of us work together as a team. The departments that I oversee are only successful as a team not as one individual, which also entails working with every one of the LCC campuses.

What is the best part of your job?

Seeing when our students needs are being met whether through their education or other activities, working with others to attain the

greater good for everyone at LCC. Seeing our students succeed.

What is the toughest part of your job?

The toughest part of the job is the decision making, some times this is not the most popular decision. The decisions have to be made. I have to agree with my colleague in the previous article "No one can be 100 percent perfect but sometimes it's hard to make decisions that others may not agree with or understand." I know that in the capacity that I serve the institution many of my decisions will be scrutinized by internal and external parties.

Where do you see opportunities to grow?

There are many opportunities to grow in every department. I see in the future with the support of everyone on this campus our student-athlete population growing, as well as our overall student population. I also see myself growing as I learn more about things that relate to my job and also things that don't, because every decision that we make affects others.

What is on your bucket list?

I would like to travel with my family. Before coming to LCC I had the opportunity to

Continued on next page

Ron Gonzales...

Continued from previous page

work in Mexico and see a totally different culture and life style. I would like for my family to witness this first hand.

What are some of the successes and visions of the departments you oversee, (be specific, for example athletics)?

Within the physical plant I have seen the staff do more with less due to the previous state cuts. I am very proud of the staff for pulling together to get things done. I have seen this happen throughout the LCC service area.

Within the athletic department, I have seen our students-athletes excel to the next level not only on the field but also in school. LCC athletics is still new and with this come growing pains I have seen our coaching staff step up to the plate to strengthen the programs.

What is the overall budget your department works with and how much does each receive?

The budgets for the departments that I oversee fluctuate just the same as the others on campus. Operational budgets that I oversee in total exceed \$1.5 million.

Being athletic director is something you began doing a couple

Ron Gonzales is pictured here with his wife Cathy who has also devoted her professional life to LCC.

of years ago. How is that coming along?

It has been a fantastic experience. I have seen the athletic program grow and foresee it continuing to grow. With the help of everyone in the program and in the institute and outside help our student athletes are seeing the rewards. Two years ago when I took this on some people asked what are you doing this for and I am sure that some people asked the president why Ron? Well everyone that knows me knows that I will give it my all. I set some goals with the help of the athletic staff and we are currently attaining these goals for our students. Don't get me wrong, it hasn't been easy, but with the help of

other college athletic directors and supporters, LCC athletics is now being recognized. It is a joy working with our student athletes, coaches and staff.

Is there anything you would like to say to the students and staff at LCC?

To the students, set your goals high and work at attaining them. There is always someone willing to help you. To the staff, do your best we are here to help our students attain their goals.

LCC baseball continues winning streak

The Luna Community College baseball team is close to accomplishing what many thought was unthinkable a month ago—finish the season with a .500 record and make the playoffs.

The Rough Riders overwhelmed Lubbock Christian Junior Varsity over the weekend 13-3, 10-0, 31-11 and 13-0 to bring their record to 19-23 on the year. They now have won seven straight and are seeking to sweep El Paso Community College this Friday and Saturday on the road.

"We need to take one pitch and one game at a time," said LCC Baseball Coach Antonio Siqueiros. "You can't think of game two when you are playing game one. We need to concentrate on what we can con-

trol, like having a quality practice. If we focus on what we do, we should be okay."

Catcher Alex Sallard continues to have a solid season. He batted a perfect 1.000 percent in three of the four games. He ended with 8 RBI and 2 home runs. He has caught every game for the Rough Riders this year.

"He's been a warrior," said Siqueiros. "He's in really good shape."

The Lady Rough Riders are 9-29 on the year, losing to Butler Community College 6-1, Garden City Community College 2-1 and Seward Community College 6-3. Two other games were cancelled because of weather. They travel to Trinidad St. this Saturday and host Colby CC on Sunday. The first game begins at 11 a.m.

Alex Sallard

LCC students...

Continued from page 1

They had sixteen rafts and four Engelhard collapsible; with the capability of holding 65 people, yet some were only filled with 28. Even though the *Titanic* managed to stay afloat for three hours, it was not long enough to help most of the people in it. That night of April 15 took more than 1,500 souls.

Aboard this ship was a famous tennis player that was one of the survivors of the *Titanic*. His name was Richard Norris Williams; he was traveling in first class with his father Charles Duane Williams. Richard told his story to a family member, and as he recalled the event he said they watched as people were filling the lifeboats. As the water reached their waists, Richard saw the ship's funnel fall on top of his dad. A rush of water from the funnel pushed him toward collapsible A, where they waited to be rescued. Once he was rescued, doctors recommended the amputation of his legs and Richard refused. He ended up healing well and continued to win multiple tennis championships.

The Sinking of the *Titanic*

By Fermin DeHerrera

On April 10, 1911, the *Titanic* set sail for New York from Ireland and there were about 2,240 passengers on board that ship. The ship was built with the best technology they had at that time, and they thought it would never sink. When they were going along they hit a big iceberg and it made a hole in the ship and water started pouring in. They started evacuating the women and children first. There were some boats that were under filled with people and some that had too many. There were also people who chose to stay on the ship. They say that this could have been prevented if they weren't going as fast as they were. There were many conspiracies about the sinking of the *Titanic*. Some people even thought the captain hit the iceberg on purpose to help out another boat for insurance purposes. The *Titanic* finally went under water at 2:20 am.

The *Titanic*

By Joyce Romero

The history of the *Titanic* is a rich landscape of triumph, tragedy, and mystery with artifacts and information still surfacing even after nearly 100 years since the event. No other vessel in history has drawn as much attention as the history of the *Titanic*, and as a result, many books, films, and other forms of media have been released in order to recount the events of April 14, 1912 and offer new facts and insight into the tragedy. *Titanic* construction began in March 31, 1909 in Belfast, Ireland and was the project of White Star Liners. It was built at

“The history of the *Titanic* is a rich landscape of triumph, tragedy, and mystery with artifacts and information still surfacing even after nearly 100 years since the event. No other vessel in history has drawn as much attention as the history of the *Titanic*, and as a result, many books, films, and other forms of media have been released in order to recount the events of April 14, 1912 and offer new facts and insight into the tragedy,”—written by Joyce Romero.

the Harland & Wolff shipyard. It took three years to build the *Titanic* and cost nearly \$7.5 million to build. A technological marvel of its time, the *Titanic* contained eighteen water tight compartments. This line of cruisers was designed to be the sturdiest and most luxurious ships of their time. She was ready to sail on her maiden voyage on April 10, 1912. Of the 2,223 passengers on the *Titanic*, only 706 survived leaving 1,517 dead. The largest percentage of survivors was first class passengers, followed by second class, and finally third class. Most of the deaths were due to hypothermia in the freezing water, which would cause death in less than 15 minutes. Six out of seven children in first class survived. All of the children in second class survived, whereas only 34 percent were saved in third class. Four first class women died, 86 percent women survived in second class and less than half survived in third class. Overall, only 20 percent of the men survived, compared

to nearly 75 percent of the women. Lillian Asplundh was the last Swedish/American survivor of the sinking of the *Titanic*. She was five years old at the time, and she had actual memories of the sinking. Her family was third class passengers when they boarded the *Titanic* on April 10, 1912. She remembered that the *Titanic* was very big and it had been freshly painted. She said that she did not like the smell of the paint. She passed away on May 6, 2006, at the age of 99.

A *Titanic* Survivor

By Scarlett Branchal

Mrs. Eleanor Widener was 50 years old the day she boarded the RMS *Titanic* in Cherbourg. She was a First Class Passenger from Philadelphia, Pennsylvania. She was taking the trip with her husband George, their son Harry and two servants. Mrs. Widener and her maid Amalie Gieger were rescued on lifeboat #4 after waiting for more than an hour. They were taken on the *Carpathia* to New York City and then got on a train back to Pennsylvania. Her husband and son were not rescued and perished with the ship.

After the loss of her son and husband, she performed lots of charity work. She also made a large donation to the Harvard Library which was named after her son Harry. She made two stipulations with the donation. One was that no stone be touched as long as the library stands and the second was that every Harvard graduate must pass a swimming test. She felt that her son would have survived if he had known how to swim. Both rules still stand today.

Later in life she married the geographer and explorer Dr. Alexander Hamilton Rice of New York. She accompanied him on many of his travels. Mrs. Widener died on July 13, 1937 of an embolism.

Luna Community College’s Title V Mission:

“Developing a comprehensive online learning network for rural, time and place-bound students.”

March 2012

March Madness

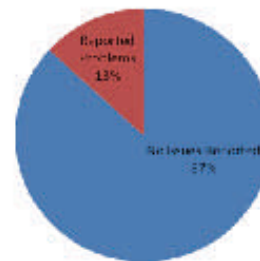

The Santa Rosa Smart Lab is still under construction. The Luna Community College Electrician Norman Sena, along with the Title V Distance Education Technician for Luna Community College Rick Roybal have been working on the lab. The electrical work and network drops are in place. The computers, printer, scanner and headsets have been ordered. The lab is almost complete. Thank you to “the guys” at the physical plant for assembling and delivering the workstations to Santa Rosa.

Leon Roybal and Mike Jaramillo from LCC Physical Plant

Tiffany Young and Alfred Kemm contacted 480 students who are taking online courses this spring semester. From the pie graph at the right, 87 percent noted no problems. Of the 13 percent reporting problems, most were attributed to automated updates to Internet Explorer 9. This upgrade was found not to be compatible with systems used for online courses such as Blackboard, Wimba and PLATO.

AHSIE | ALLIANCE OF HSI EDUCATORS

2012 Title V Best Practice Conference

Lorraine Martinez presenting at the Title V Conference

At the Title V Conference in San Antonio, Texas from March 12 - 15 the Title V program at Luna Community College was

asked to present on, “Institutionalization.” Jennifer Gomez-Chavez from University of New Mexico was also asked to present. The Luna Community College Title V Program was verbally recognized by the U.S. Dept. of Education Title V Program Officer, Rick Gaona, for being a model program nationwide. At the presentation, two other program officers from the U.S. Dept. of Education attended and complimented the Luna Community College Title V Program.
