## Sharing a compliment

*In today's fast-paced world, often-times we don't take time to appreciate one another. The Luna Light is beginning a segment where people can share compliments. What is interesting about this segment is that the individual that shares the compliment will not have their name published. Anyone wishing to share a compliment about someone can e-mail their quote to [jgallegos@luna.edu](mailto:jgallegos@luna.edu). We hope to publish this segment on a regular basis.*

### Sandra Rivera

Have you ever wondered why some people are nice one day and not so nice the next. Sometimes we don't know what to expect.

Sandra Rivera is not one of these people. In fact, her smile and consistently great attitude is contagious. It does not matter if it's Monday morning

or Friday afternoon she is pleasant and this is nice to see.

How does someone maintain such a great attitude day-in and day-out? Not sure, but whatever Sandra does she needs to keep on doing it.

Like in most jobs, people are under pressure and pressure works differently on individuals. However, it's not uncommon to see Sandra remain cool and calm.

Sandra maintains the collected approach it takes to get things done. She's a good example for all of us to replicate.

Like every human being Sandra isn't perfect, but her consistency is close to it. Sandra you are a bright star for this college. Keep shining bright.
