"Creating a Pathway to Success in High-Demand Programs"

VOLUME 3, ISSUE 8

MAY 2015

## 3G Man Preventative Maintenance

On May 12, Manny our SimMan 3G, was given preventative maintenance on all body parts. The technician tested the mannequin for leakages, functionality, software issues, connections and all fluid systems. Specific service tests were performed on the head, neck, torso, pelvis, legs, feet, arms, eyes, vital and sound system, the chest movement and electrical therapy.

Mr. Daniel Rivera, Laerdal technician, spent two days at the Simlab working with Larry Paiz in the preventative maintenance areas of SimMan 3G. The virtual IV's and SimPads were also tested and checked

**Daniel Rivera works with SimMan 3G in checking all systems with Larry Paiz looking on.**

## Building Trades Project

**Contractors are working on renovations of Building Trades.**

On May 13, 2015, a pre-bid meeting was held at the Luna Community College Boardroom to discuss the Building Trades project for the Electrical Lab. This lab will be located in the Building Trades area that will house the Electrical Lab/classroom for students enrolled in the electrical program to acquire an electrical wiring certificate. Many contractors and subcontractors were at the meeting to get the specific information needed to bid on the project. The deadline to submit the bid was on June 9, 2015.
