"Creating a Pathway to Success in High-Demand Programs"

Project Planning is Underway for the Collision Repair Building

Many productive and informative meetings have transpired in the past 45 days with Wilson & Company Architectural firms. Planning, progress and timelines are essential in moving the Year 2 Title V initiative forward with the Auto Collision building.

Representing Wilson & Company Project manager John Montoya who will be heading this project while working closely with the LCC project committee that consists of LCC President Dr. Campos, Vice President of Finance Donna Flores-Medina, Title V Director Lorraine Martinez, Trades Director Gary Martinez, Interim Physical Plant Director Norman Sena, Auto instructor Anthony Baca, and Office Managers Tiffany Young, Erin Lopez and Matthew Cordova. Everyone's input is critical in the design and implementation of the project. We look forward to many more future updates with the committee to progress with the construction project.

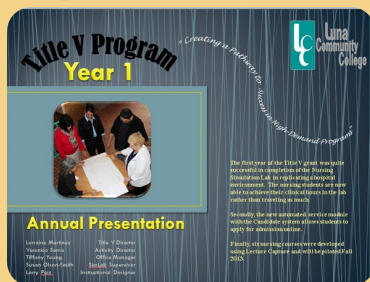

Pictured above: Dr. Campos, John Montoya, Abelino Montoya, Dan Romero, and Kenny Medina along with the Collision Repair Building Committee reviewing the construction timeline and financial plan.

Year 1 BOT Packet is Complete

Title V submitted its Year 1 initiative status report to the President and Board of Trustees at the March 18, 2014 board meeting.

As required by the Title V grant, all program plans, objectives and activities are outlined as to the time frame and implementation of all grant initiatives for the year.

The Simulation Lab was the main initiative of Year 1 accomplishments.

Blackboard Training

Instructional Designer Larry Paiz continues to train the Auto Collision faculty for Year 2 courses.

Anthony Baca, Paul Espinoza and Gene Sandoval have had two trainings for the development of the following courses: Auto 100, CRT 1110, CRT 115, CRT 120. These Courses will be piloted Fall 2014.
