“The People’s College”

Becoming The Premier Rural Community College in America

Volume 4 Issue 21

June 6-12, 2011

Recent West Las Vegas graduate Brandon Quintana looks over a college catalog with Luna Community College’s Melissa Lopez on Wednesday. Summer classes at Luna Community College begin on Monday, June 6. The last day to register at LCC is Friday, June 10.

Higher Learning Commission approves Luna CC Online Degree Programs

By Vidal Martinez

Vice President for Instruction

The Higher Learning Commission has approved Luna Community College to offer three online degree programs. They include the Associate of Applied Science Degree in Business Administration, Associate of Applied Science Degree in General Agriculture, and the Associate of Applied Science Degree in Military Studies.

Why choose an online degree in business administration? The online degree program is designed to prepare students to obtain a bachelor’s degree in business or enter the work force in various facets of the business world. Students will gain knowledge in the areas of financial management, concepts in marketing, computer applica-

tions, and ethical procedures in administration. Web page design and E-commerce are also integral components with selected courses articulated for credit transferability between universities and colleges in New Mexico.

Why choose an online degree in military studies? The military studies program prepares students for service in the military. It is designed for individuals serving in the profession and as a preparatory program for individuals seeking a career in the military. The curriculum provides coursework in communication skills, organizational behavior, teamwork, motivation and the decision-making process.

Why choose an online degree in general agriculture? The degree is an introductory program designed for

individuals seeking employment opportunities in the agriculture industry or for transferability to a university. The purpose is to introduce students into the field of agriculture with a two-prong approach. The first is to help students build academic skills in preparation for university work. It is the intent of the program to assist the student in skill building through 33 credit hours of General Education CORE requirements. The goal is to help students with a well rounded education and the ability to communicate, write, solve problems, analyze information and interact with diverse people.

Continued on page 2

Online degree programs...

Continued from page 1

The second approach is to assist the student for employment opportunities. Individuals pursuing the degree are required 16 credit hours in general agriculture, with a focus in agriculture economics, business, and management. The program's capstone includes a research methods project and an internship. Furthermore, students have a variety of electives to choose from, including course work in equine (horse science), aquaculture, biology and horticulture.

What will I learn in the Military Studies program at LCC?

Communicate information utilizing writing and speaking as tools to make clear, logical arguments and summarize important parts.

Apply skill of research to demonstrate knowledge of the structure and doctrines of the armed forces.

Describe the moral and ethical concerns raised through the study of the relationship of the military to society and technology.

Discuss and apply the various methodologies and approaches to the study of history, political science, and international relations in a military context.

Articulate the fundamentals of military planning, organization, and leadership being utilized in today's armed forces.

What will I learn in the Business Administration program at LCC?

Analyze financial data influenced by internal/external factors in order to make short-term and long-term decisions. Read, interpret, and analyze financial information in making financial decision.

Apply generally accepted accounting principles (GAAP).

Describe human resource functions and their importance to an organization's successful operation by demonstrating an increased emphasis on the higher-level thinking skills required to successfully manage people and businesses.

Explain the role of organized labor and its influence on government and business by recognizing the role change management plays in today's organization.

Examine and distinguish the importance of ethics, social and corporate responsibility in decision making.

Examine the issues of corporate culture and managing in the global environment.

Utilize information and technology tools to conduct business effectively and efficiently.

Demonstrate the use of technology as a tool for facilitating business functions.

What will I learn in the General Agriculture program at LCC?

An understanding of general agriculture principles and practices.

An understanding of historical perspectives of animal science and the current status of animal agriculture.

An understanding of the theoretical concepts and principles of economics and business as applied to food and the agriculture industry.

An understanding of management principles in agriculture.

An understanding of research methods, communication skills, writing, problem solving and information analysis in agriculture.

July 12, 2011	Cafeteria Patio	11:30-1:30	"Luau"

Bernalillo High graduate Shannon Taraddei signs a national letter of intent to play softball for Luna Community College. Taraddei will play centerfield for the Rough Riders and has experience as a leadoff batter. Pictured with her is her sister Jennifer, her father Carl and her mother Brenda. Standing are Assistant Coach Marco Aragon, Head Coach Meredith Gilpin and Athletic Director Ron Gonzales. The Rough Riders had their best season in team history last season finishing 20-28.

Former LCC player Melanie Alderette plays at ENMU

For two years Melanie Alderette roamed centerfield for the Luna Community College Rough Rider softball team. This past season she did the same for

Melanie Alderette

Eastern New Mexico University. She is the first former LCC softball player to play for a four-year university. She was part of the colleges first recruiting class three years ago.

“Melanie made a bunch of good defensive plays for us,” said Adam Peterman, ENMU director of athletic communication. “She was lightning fast. She was a welcome addition to our team.”

Alderette was first on the team with 29 stolen bases and was third in on-base percentage at .383. She was also tops in runs scored at 38 and second with triples at two. Alderette was second in walks with 23 and third in hits at 46. She was tied for the team lead in games played at 54.

“She is a hard worker and a hustler,” said LCC Head Coach Meredith Gilpin. “She is dedicated to the program and I am not surprised that she played at the next level. I am excited and proud to see this. I am happy to see that Luna gave her the tools to succeed at the four-year university.”

The Valley High graduate earned a liberal arts degree from Luna Community College in 2010.

Luna Community College’s Title V Mission:

MAY 2011

VOLUME 4 ISSUE 6

“Developing a comprehensive online learning network for rural, time and place-bound students.”

IMT Members Record Their Thoughts

During the Internal Monitoring Team (IMT) meeting held in May, many of the IMT members were able to record their impressions of what value the Title V initiative has done to impact students and faculty at Luna Community College. The cameras, teleprompters, lighting, set and computers were ready for recording.

Members had the opportunity to view the Recording Studio. John Tieman explained the purpose of all the equipment in detail and recorded everyone with the state of the art cameras. The green screen effect of the wall used for the background, made the sessions fun and productive. Everyone had a good time recording their thoughts.

At the conclusion of the meeting, Mr. Eloy Garcia, seasoned IMT member and Humanities Director, was recognized for his supportive efforts of the Title V program. We will miss Mr. G!

John Tieman, Online Student Services Developer, records select IMT members.

State of the art equipment purchased through the Title V grant for Student Service projects.

IMT member, Georgis Baca, discusses her thoughts about the Title V initiatives, on camera.

Thank You Jesse!

The Title V staff would like to thank Jesse Gallegos, Luna Community College Public Information Coordinator, for his support for the Title V program and its initiatives. Jesse is always willing to help with any project that requires public relation networking or general picture taking. His humor and lighthearted nature is another trait that the staff is grateful for. Thank you Jesse for your expertise and easy going attitude.

You are appreciated!

Title V Staff

Point-To-Ponder
“Develop a passion for learning. If you do, you will never cease to grow.”
 — Anthony J. D’Angelo

Regular tune-ups lead to better running college

By Dr. Pete Campos

I am often asked: why do you meet so often with the lead advisory team (LAT)? My response is straightforward - **to improve our college operations.** There is a lot involved in running an efficient college operation. I must (with the assistance and cooperation of the LAT and all Luna personnel): remain informed of issues affecting daily operations – this happens through routine communications and people reporting the actions of others; keep up with federal, state and local dynamics that affect everything from student success to employee behavior; balance and maintain effective operations and fairness so student educational needs are served and individual employee confidentiality respected; carefully, thoughtfully and thoroughly guide academic, budget, personnel and overall operations so student learning expectations are met; inquire about, investigate and resolve matters that stifle or hinder our smooth operation; and, represent Luna Community College with integrity and commitment.

Our leadership advisory team does not stop. They are highly dedicated and constantly deal with difficult matters that – if not addressed – would obstruct efforts to move our college forward. Chin-Ning Chu (famous strategist) said, “Without the strength to endure crisis, one will not see the opportunity within. It is within the process of endurance

that opportunity reveals itself.” I believe this quote best describes the approach taken by LAT members. They help implement leading edge changes that keep us aligned with the higher learning commission policies, competitive within our country’s college system and truly progressive. We all owe a debt of gratitude to this fine group of leaders for their unconditional commitment to LCC.

Our leadership advisory team does not stop. They are highly dedicated and constantly deal with difficult matters that – if not addressed – would obstruct efforts to move our college forward.

I know they do not go at it alone. I have seen it first hand – they rely upon and need each employee within their departments to effectively serve our students.

Here are four tips to improving our college: 1] do our part to strengthen our accreditation – which I believe is the central process for improving college

operations; 2] learn more about and buy into the transformational leadership best practices used to guide our college for the short and long term; 3] support our governance structure and build confidence in the role each of us plays in the operation of LCC; and, 4] even though these are tough economic times – let’s share and not be tempted to besmirch or take advantage of others.

So, like those regular vehicle tune-ups which provide us with more reliable transportation and a savings to our pocketbook – regular tune-ups to our operations will ensure a more reliable future to serve students, sustain employees and build upon a good reputation.
