## LCC Wellness Center to start basketball intramural program

Basketball is coming to Luna Community College in the form of intramurals.

The Luna Community College Wellness Center staff will be starting a basketball intramural program for both LCC students and community members. The goal is to hold 3 on 3 competition three days out of the week. There will be maximum of five players per team and will follow NFHS basketball rules. There will be a charge of \$50 per team. The money collected will be placed in the Wellness Center account. Money in this account will be used for prizes, awards and equipment. In addition, a running track of extracurricular activity money at the Wellness Center will be kept.

The winning and second-place teams will be awarded t-shirts. Competition will begin on Monday, March 18 and run through Thursday, May 9. It will culminate with a tournament.

The LCC Basketball Intramural Program is open to both female and male participants who are 16 and older.

"I want to involve the wellness center in more student activities and would like to see more community members utilize our facilities with fun and competition through basketball," said LCC Wellness Center Director Dawnette Garcia-Najar.

For more information, call Garcia at 505/425-8767.

## Rough Riders sweep El Paso Softball team splits with Trinidad St.

The Luna Community College baseball team made quite an impression in their Western Junior College Athletic Conference debut. It couldn't have gone any better as the Rough Riders swept El Paso Community College 10-8, 7-4, 8-1 and 10-3 on the road.

With its wins, Luna Community College is tied for the conference lead.

"It was a great team effort," said LCC Head Coach Antonio Siqueiros. "We executed at the right place at the right time. We capitalized on their mistakes and fortunately the mistakes we made didn't cost us too much."

The Rough Riders, 5-13, will host Odessa College on Friday and Saturday in a four-game home stand. Games begin at noon on both days.

"The wins put us in a great position; it's going to be a tough road ahead. Odessa is a good team," said Siqueiros.

Rudy Gutierrez pitched a full nine innings

in the second game. Other winning pitchers included J.D. Heredia, Edwin Juez and Nicasio Gonzales.

As a team, the Roughriders had nine double plays.

Ridge Hoopii Haslam hit over .500 for the series.

The Luna softball team improved to 5-8 on the year after splitting two games with Trinidad State on Sunday. They lost the first game 3-1 and won the nightcap 8-7.

Veronica Holloman took the win for the Lady Rough Riders after pitching in relief of Renee Roybal.

“Both players pitched a pretty good game,” said LCC Interim Head Coach Nathan Trujillo. “It was nice to see all the fans come out and support us. I believe it was the first time our softball team has ever beaten Trinidad State.”

Gabriella Negreiros hit a pinch hit three run home run in the fifth inning. Alexis Murrillo had a walk-off double in the winning game.

# Renewed hope—LCC employees jobs intact

By Dr. Pete Campos

The actual date of distribution for Luna Community College employee's letters of intent was February 28, 2013. While my actual [President's] signature on the letters of intent form was dated Saturday, Feb. 23, 2013 (I work and represent LCC 24-7-365), I want our Luna Community College employees [family] to be given the maximum time to consider signing their letters of intent.

During the past 4 and ¾ years as president I have ensured that our operating budget is solvent, our employees have good paying jobs and most importantly, students who choose to attend Luna Community College are provided the opportunity to earn quality course college credits at an affordable price. I take full and personal responsibility to ensure our students receive the best quality education possible at the most reasonable cost possible. Pope John XXIII said, "Consult not your fears but your hopes and dreams. Think not about your frustrations, but about your unfilled potential. Concern yourself not with what you tried and failed in, but with what it is still possible for you to do."

Again, while the public sector and many private businesses are operating cautiously; so are we at Luna Community College. We have carefully, professionally and systemically maintained our academic, vocational and athletic offerings to students. This has led to a gradual increase in student retention and completion of their programs of study.

We have experienced a growing number of course, certificate and degree completions by students. This has come as a result of our faculty and administration pushing the envelope so students are encouraged, tutored and mentored to follow their educational track and com-

plete their degrees.

LCC will continue to provide up-to-date programs of study relevant to move students towards degree completion and the world of work. While every LCC employee position is important; the success of every student is just as important. **Thank you employees for focusing on student success!**

**"As President, I will continue to work diligently and deliberately to ensure that every employee who wants to continue working at LCC and meet our student's missions and aspirations is provided an opportunity to do so,"—Dr. Pete Campos.**

As President, I will continue to work diligently and deliberately to ensure that every employee who wants to continue working at LCC and meet our student's missions and aspirations is provided an opportunity

to do so. After all, LCC is about our students!

I am especially excited to learn that the grandparents, parents, guardians, spouses, children, relatives and friends of our students are encouraging them to complete their programs of study. We have provided and will thoughtfully expand student access to tutorial services, great teachers, effective instructor to student ratios, administration to student encouragement and the best quality education at one of, if not, the lowest costs in the state to all our students regardless of their personal situation.

Think about it! LCC has kept its commitment to staff and students! We've kept people working and met the academic and vocational needs of our students. This is phenomenal, especially during tough economic times. William Patten said, "Don't be afraid to give your best to what seemingly are small jobs. Every time you conquer one it makes you that much stronger. If you do the little jobs well, the big ones will tend to take care of themselves." Thank you employees of Luna Community College; let's help our students move towards the world of work they have chosen!

**Luna Community College Building Technology Instructor Joseph Montoya teaches an OSHA certification class on campus on Saturday morning. Montoya has established himself as one of the leading OSHA instructors in the area. In the Occupational Safety and Health Act of 1970, Congress created the Occupational Safety and Health Administration (OSHA) to assure safe and healthful working conditions for working men and women by setting and enforcing standards and by providing training, outreach, education and assistance. Among his students on Saturday was LCC Collision Repair Instructor Gilbert "Guba" Martinez (far right). LCC Safety Coordinator Andrew Duran was also in Saturday's class.**

**Luna Community College hosted the Phi Theta Kappa New Mexico Region Spring Convention on Saturday. The convention was hosted by LCC's Beta Mu Nu Chapter. Approximately 70 Phi Theta Kappa members and advisors from community colleges across New Mexico attended the convention.**
