

# Luna Community College's Springer Satellite to host Trades and Career Day on Nov. 30

Luna Community College's Springer Satellite will be hosting a Trades and Career Day on Thursday, Nov. 30. The purpose of the event is to showcase Luna Community College's programs to potential students from northeastern New Mexico.

"Organizations and entities from throughout the region have been invited to attend, including high schools, local businesses, and governmental agencies. The event is also open to the general public," said Luna Community College Springer Satellite Coordinator Tina Gallegos. "This is a great opportunity for everyone to see and experience what Luna Community College has to offer."

Several Luna Community College departments are participating in the event including: welding, building trades, automotive, furniture and cabinet making, cosmetology, commercial driver's license (CDL), dental assisting, humanities, quilting and early childhood education.

"Potential students will have the

opportunity to interact with College faculty and staff, have their questions answered and register for courses on site," said Gallegos.

In addition, Gallegos said that they will feature welding and heavy equipment simulators for people to use.

"This is the first time hosting an

event of this nature," said Gallegos. "I would like to see a large turnout so we can continue to grow and introduce programs to the Springer area."

For more information on The Luna Community College Springer Satellite Trades and Career Day, call Gallegos at 575/483-5925.
