VOLUME 3, ISSUE 3 DECEMBER 2014

*"Creating a Pathway to Success in High-Demand Programs"*

## *Happy Retirement Susan!*

For the past three years, Susan Olson-Smith has been the Simulation Lab Supervisor for the Title V program. Susan played a vital role in creating the Simulation Lab, over seeing the nursing faculty in development of scenarios, programed the mannequins for simulation exercises, and discussed the outcomes at the debriefing sessions. Her expertise and knowledge in working with the students in the Simulation Lab has proven to be extremely beneficial in preparing students for the workforce. Susan's humor, work ethics,

dedication, and unselfishness are traits that everyone who has worked with her will miss.

Susan's rapport with students has always been productive and meaningful, and she values all students making them feel important. Susan has always encouraged her students to critically think and understand what they need to do, so that they can be the best in the medical profession.

***We will miss Susan and we wish her good health and happiness as she retires. We'll also miss her jar of M&Ms!!!!***
