EMT Program comes to LCC

In the Title V grant, the EMT (Emergency Medical Technician) Program was to be initiated in Year 5, but looking at the need for training purposes and personnel, the plan was moved up to Year 3. It was approved by Department of Education Program Officer Jeffery Hartman.

Larry Paiz and David Muniz will set-up trainings to start in the summer for personnel to get qualified and ready to go for fall classes.

Director of Allied Health Andrellita Chavez was very instrumental in requesting the EMT program start as soon as possible to attract and enhance the Nursing Program to build opportunities for the medical needs of the community.

Building Trades Construction Project set to start soon

The first official meeting for the Building Trades initiative was held on March 19, 2015 in The Physical Plant office. Floor plans, the electrical lab, GO Bond monies, mechanical systems, plumbing, and special systems were some of the many items discussed. With so many present at the meeting, a lot of information was discussed regarding the future project in the Vocational Trades Department. It was requested the electrical lab be top priority, due to Title V's Year 3 fiscal year ending on September 30, 2015. *Everyone was excited and focused in looking and planning for the next project!*

Left to right: Gary Martinez, Brandon Hensley, Ron Gonzales, Lorenzo Barraza, Joseph Montoya, Veronica Serna, Tiffany Young, and Larry McDonald.
