NOVEMBER 2015

*“Creating a Pathway to Success in High-Demand Programs”*

## *EMT*

Sgt. First Class David Muniz, with the 1st Battalion 515 RTI National Guard and EMT Instructor for Luna Community College, discusses his Spring schedule with the Title V staff for the upcoming refresher course and Spring classes. Mr. Muniz, whose titles include EMTI, BSN, MSNEd, is a valuable employee in the medical field for us at Luna Community College.

The need for the EMT program was based upon the increasing amount of requests from medical responders from the community. Job openings have prevailed in New Mexico than in the nation. New Mexico EMTs earn an average of \$29,100 and up to \$45,700 with experience. David will teach the EMT classes at Luna Community College.

## *SimLab Tour*

Students from Coachella Valley, California were at Luna Community College touring all departments. Larry Paiz, Title V Instructional Designer, talks to the students about the functionality and various scenarios that are used by the nursing students in the Simulation Lab. Information on the Simulation Lab was passed out to all students.

## *KCI Wound V.A.C. In-service*

Cathy Rios, the clinical specialist from KCI, came to the Luna Community College campus and in-serviced the first level nursing students from 1-4 pm. The students were in-serviced on the wound healing cascade and proper wound V.A.C. application. Each student was given the opportunity to do a hands on dressing application creating a negative pressure seal. The information that was presented was very much appreciated by all the students.
