

Truck Driving is LCC's Business!

Representatives David Green and Eli Tollinchi speak to several CDL students and instructors about job opportunities with Werner Enterprises. The company is a premier transportation and logistics company with coverage throughout North America. Werner is among the five largest truckload carriers in the United States, and David Green, field recruiter, said that the company is very interested in CDL students from Luna Community College.

Instructors attending the meeting were Joseph Montoya, Toby Medina, Larry Moore, and Manual Barela. According to Dr. Martinez, "Without our instructors, all of them adjunct faculty, the program would not be successful. I would also like to thank Trades Office Manager, Karen Wezwick, for her dedicated work with CDL."

If anyone is interested in the CDL program at Luna Community College, please contact Karen at 505-454-2530 or kwezwick@luna.edu.
