

You can request items directly through our catalog if you set up My Library Account.

You can also get to this login screen from the Library's homepage (<https://luna.edu/lrc>); scroll down to find books and click on card catalog.

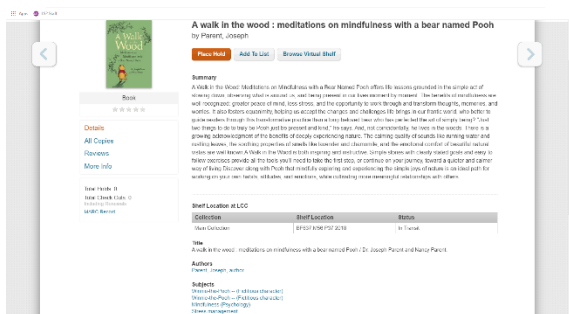

The Username will be the barcode the LRC has issued you and the password will be your staff or student ID number. Once you get into your account you can change your username and password.

Once you're logged in, you can view your current checkouts, renew eligible items, and request new items. Search our catalog using the search box at the top of the page.

Click on the title you'd like to request.

If the item is available for pickup, you will see an orange 'Place Hold' button; click it.

On the following page, click 'Submit.'
