Community Health Worker Certificate Curriculum Map

This curriculum map is designed to show how program learning outcomes are introduced, developed, and mastered across courses in the program. Use the following guidance when completing or reviewing the map:

Introduced: Indicates the course provides students with their first exposure to a concept or skill. At this stage, students are expected to demonstrate only a basic understanding.

Developed: Indicates that students gain more in-depth knowledge, practice, and reinforcement of the concept or skill. Students are expected to begin applying what they have learned with increasing independence.

Mastered: Indicates that students can independently and skillfully apply the outcome, demonstrating a high level of understanding and competence appropriate for graduation and entry into the workforce or a 4-year institution.

Courses are listed in rows and PLOs are in columns	Use culturally and linguistically responsive, plain-language communication to strengthen client health literacy and selfeficacy.	Teach and coach individuals and families to implememt care plans and adopt prevention strategies throughgoal-setting, motovational interviewing, and follow-up.	Navigate and coordinate health and social service systems, complete referrals, and reduce barriers related to eligibility, access, transpotation, and language.	Document client interactions accurately, maintain confidentiality, and demonstrate CHW professionalism-ethics, boundaries, teamwork, and reliability-especially in underserved communities.	Identify, assess, and communicate social and environmental determinants of health to the care team to inform person-centered care plans.	Advocate with and for clients and communities by conducting needs assessments, mobilizing resourses, and building capacity for self-advocacy.	Build partnerships with clinics, community agencies, and public programs to support outreach, health education, and continuity of care.
