DESCRIPTION: The mission of the Luna Community College Nursing Department Program is to prepare students to practice as Registered Nurses. The educational program will take place within an environment that emphasizes life-long learning and inquiry for both instructors and the community of students. Our program will be responsive to the changing needs of our students within a changing health care system. It is our mission to prepare registered nurses to provide culturally competent, community-based care for our diverse populations in predominantly rural, health care settings in the state of New Mexico.
