Associate of Arts Degree

64 credit hours

Program Goals

The Liberal Arts Degree program will provide students at Luna Community College with a well-rounded educational background. The Associate of Arts degree program provides a solid foundation in arts and sciences, allowing students to transfer with confidence to baccalaureate programs at four-year colleges and universities. A liberal education helps students develop a sense of social responsibility, as well as strong and transferable intellectual and practical skills such as communication, analytical and problem-solving skills, and a demonstrated ability to apply knowledge and skills in real-world settings.

Graduates of the program will:

- Possess the values, collaboration skills, standards, and ethical judgment required for personal and professional interaction.
- The ability to express ideas and share knowledge in a clear, focused, and organized manner.
- The ability to analyze, synthesize, and evaluate information in a logical and coherent manner.
- Examine a concept in different contexts and from independent perspectives.
- Technical Skills: theoretical and applied knowledge for career entry and continued professional development.
- The application of strategies, resources, and attitudes to find solutions that effect society.

Synopsis of Significant Findings

There has been a steady decline in student enrollment for the last three years. There have been very few graduates in this program. Most students were declared General Studies' majors instead of Liberal Arts Programs.

Program Improvement Plans Implemented or In-Progress

The Liberal Arts program will become the main Associate of Arts Degree in Humanities. It is replacing the General Studies AA, which has been approved for suspension by the current curriculum committee. The Liberal Arts AA is more transferable and is more applicable for gainful employment.

Advisory Committee Work

As of yet no committee has been established.

Student Advisement by Semester

Very little advisement has occurred as the focus for our students was not the Liberal AA, but the General Studies AA.

Yearly Return on Investment

Costs for instruction are listed by course.

Alumni Surveys

As of yet this department has not administered alumni surveys.

Program Learning Assessment Plan (Weave)

Appendix B provides the program assessment of learning plan created by the faculty.

Student Alumni

As of yet this department has no data.

Curriculum Committee Work (Link)

All courses in this program are aligned with NM articulation agreements.

Final Program Approvals (Board of trustees) approvals to move program forward

Students are being advised to major in Liberal Arts as the General Studies degree has been placed in suspension by the Curriculum Committee.

Accreditation

As of yet no accreditation program has been established.

Evaluation of the Program

Through much discussion within the Humanities Department and with all other departments on campus, the decision was made to make the Liberal Arts AA the main degree of the department and to suspend the General Studies degree. We hope to grow the degree to accommodate all the students that were formally looking at earning General Studies' Degree.

It is highly recommended that students needing remedial courses utilize the summer semester to continue on a program map. This would allow students to complete their program of study within the traditional two academic years.
