

Hi, my name is Paige Gowen, I am your Student Senate President. I am originally from Black Forest, Colorado. I have been in college for two years now. I am currently working on my Allied health certificate and hopefully, next year get into the nursing program and become a Registered Nurse.

Hello. My name is Amaliah Cruz. I hail from the small town of Wagon Mound, NM where I reside with my grandparents, two dogs, and a plethora of barn cats. Some of my favorite activities include hanging out with friends, fishing, and going on outdoor adventures/activities. I also quite like coffee and the color turquoise. I'm currently pursuing my associate's degree in applied science and hopefully by next year I will test into the nursing program, ultimately gaining my RN and becoming a travel nurse.

Hi my name is RJ Baca. I was born here in Las Vegas. I enjoy fishing, making music, and sports. I have been in the student senate before. I have enjoyed helping others by being in the student senate. One of my favorite things we did was the end-of-year BBQ.

I am Victoria Garcia Montoya, 36 years old. I am a freshman in the Business program at LCC, working on an Associates in Science majoring in Business Administration. I am originally from Pecos, NM but reside outside of Las Vegas. My hobbies are cooking and helping others. One thing I've learned about life is that you can achieve your goals at any age if you're willing to do the work to get there. And I love my cats.

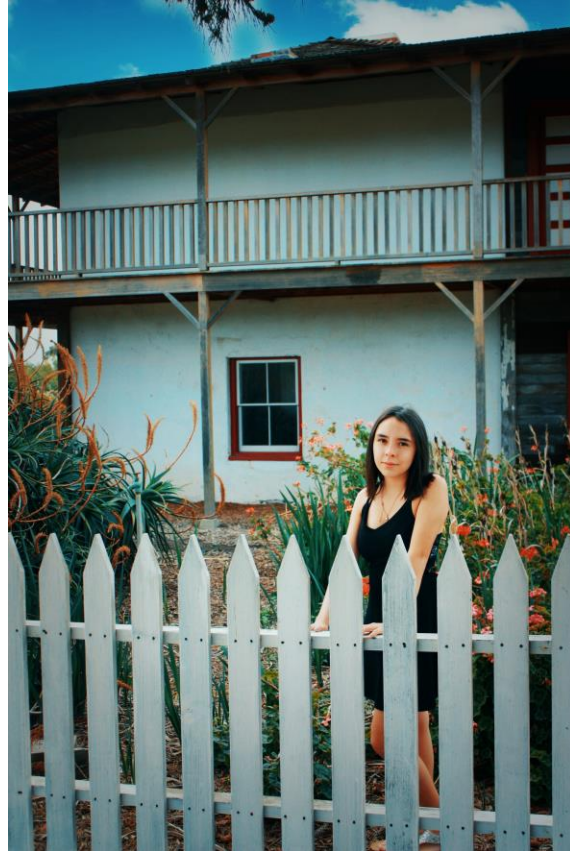

Student Senator Angelica Ortizow,

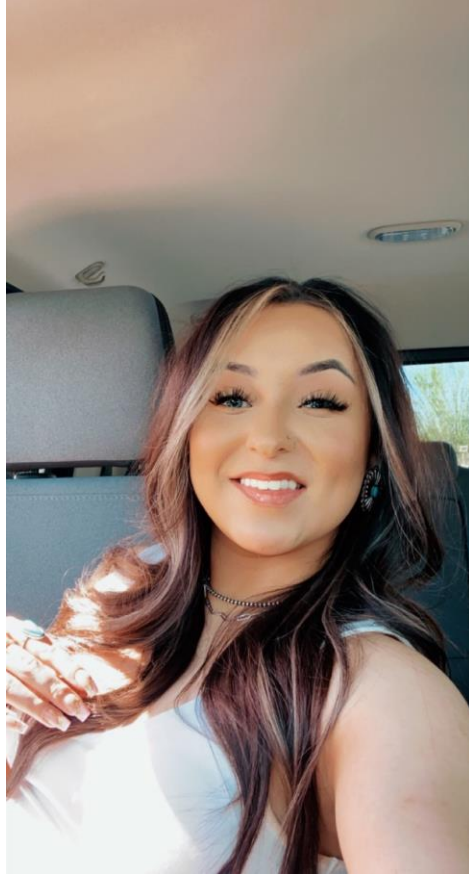

I received my Associate of Applied Sciences in Allied Health in 2021, I am currently studying for the Teas Exam for the Nursing Program. I am a full-time mother continuing my education at Luna Community College to be a Registered Nurse. Being a non-traditional student in college was difficult for me. Luna has always been the perfect place for me to succeed and I love giving back to my second home which is Luna. With the help of the ACE tutoring program and Luna being so student-oriented, I am able to succeed.

I have learned that every student has difficulties to overcome when it comes to education and as a student senator, I want to represent my fellow students. I enjoy helping my peers and meeting new students because I was that timid and lost student but I am now able to be a model student for others to follow.

Thank you to Luna Community College for making my Dreams a reality.

Hello, my name is Mariah Tenorio. I am going to Luna and majoring in Criminal Justice to become a game and fish officer one day. I'm from a small ranch right outside of Las Vegas called Ojitos Frio's. I enjoy fishing hunting and being outdoors. Me and my dad are very close and he is actually the one that helped me love the outdoors which then made me make the decision in the career that I chose. I'm super proud to be a senator and help out this semester to ensure that you are heard!!

Hi, my name is Samantha Vigil! I'm a senator for student senate. I'm currently attending my last semester at LCC. I am a Criminal Justice major. I plan on using my AA degree to become a police officer when I finish school in December.
