

# You could save a little one's life.

## Infant & Child CPR Class

Free for moms and dads!

CPR information and resources for parents

Monday, April 29

5:30 p.m.

Luna Community College Allied Health Building, Room D02

All new moms and dads are encouraged to attend. Learn how six minutes without oxygen to the brain can cause irreversible effects, which can last a lifetime for your child. Become informed on how having CPR knowledge and understanding can save your child's life and others.

Note: CPR information will be available but the CPR/BLS card will not be issued due to the required completion of hours needed for CPR/BLS certification.

For more information, contact Dawna Ortega-Gallegos, 505-454-5382 or 505-718-8774.
