G. Appendix G: Suspicious Behavior Form	27
H. Appendix H: Drug Screen Referral Form	28
I. Appendix I: Student Wellness Agreement	29
J. Appendix J: Appeal Form	30

I. INTRODUCTION

It is a pleasure to welcome you to the Nursing Program at Luna Community College (LCC). You have selected a career which offers many rewards, challenges, and opportunities. Students entering the Nursing Program must be highly motivated, mature, and focused. The program director and faculty of the LCC Nursing Program wish you success as you begin your nursing education.

The nursing handbook has been developed to provide you with specific policies and regulations set forth by the department, clinical facilities, and/or other regulating agencies associated with the educational program.

Certain program policies set forth prevail over other institutional policies, to assure compliance with standards of practice established by the State of New Mexico Board of Nursing (BON) and the American Nurses Association (ANA) Code of Ethics for Nurses.

The program was approved by the NMBON to adopt the shared, statewide New Mexico Nurse Education Consortium (NMNEC) curriculum. Hence, the program adopts all policy set forth by the NMNEC.

Nursing Degree Offered: *Associate of Applied Science Degree in Nursing (Pre-licensure)*

Save the handbook for future reference. The program director or faculty will answer any questions pertaining to the handbook. You are responsible for becoming acquainted with the LCC Catalog and the LCC Student Handbook as well as general college policies.

Students enrolled in the Pre-Licensure Nursing Program at LCC are responsible for their knowledge of and adherence to regulations printed in these nursing student guidelines.

The LCC Nursing Program reserves the right to modify any provisions or requirements when such action will best serve the interest of the client, the Nursing Program or its students. Notification of changes will be communicated to students in writing.

II. MISSION STATEMENT

The mission of the Luna Community College Nursing Department Program is to prepare students to practice as Registered Nurses. The educational program will take place within an environment that emphasizes life-long learning and inquiry for both instructors and the community of students. Our program will be responsive to the changing needs of our students within a changing health care system. It is our mission to prepare registered nurses to provide culturally competent, community-based care for our diverse populations in predominantly rural, health care settings in the state of New Mexico.

III. PHILOSOPHY OF NURSING PRE-LICENSURE NURSING PROGRAM

The following philosophical statements reflect the faculty's beliefs about the practice and discipline of nursing.

PERSON

Each person is a unique biological, psychological, socio-cultural and spiritual being that is a composite of dynamic, interrelated systems with individual, social, and universal needs. The person has constantly changing roles that are determined by societal and individual values and perceptions, which are influenced as the person evolves developmentally throughout the life-span. The individual has rights of self-determination, dignity, respect and personal beliefs. This commitment to the dignity of the individual is manifested in behavior of the learner-student, teacher-faculty, and institution-administration. It is also reflected in the community at large as students are prepared in the health care system for their place of employment as health care workers, change agents, and client advocates.

SOCIAL-CULTURAL ENVIRONMENT

The social cultural environment is an open, interrelated system, which includes family, community, and society. The individual acquires cultural patterns, values and beliefs through this interaction. It is a dynamic, changing process in response to political,

ethical, legal, socioeconomic, spiritual and religious interactions, with cultural diversity as an important factor. When individuals are unable to meet their needs within this changing environment, it becomes the responsibility of the family, extended family, and community to assist in meeting those needs. Nurses, who are part of the community, are educated to assist individuals and their families to meet health-related needs, with cultural sensitivity to the diversity of the community.

HEALTH

Health is a complex and ever-changing state of physical and psychosocial well-being. Well-being is a state whereby the individual perceives a sense of self-contentment, happiness, peace and a high quality of life. The role of the nurse is to assist an individual to choose actions that educate, promote, maintain and restore health in a dynamic and changing health care system. The nurse provides culturally competent care by application of the knowledge of values, beliefs and cultural traditions within a variety of health care settings.

NURSING

Faculty views nursing as an art and a science. Art is the practice of caring, through the provision of nursing care in a respectful, ethically responsible, and culturally sensitive manner. Nursing science is the incorporation of current concepts, principles, standards, and theories from the humanities, physical, behavioral and social sciences in providing safe, competent and effective care within diverse health care settings. Therapeutic communication is viewed by the faculty as a fundamental core competency when providing nursing care for clients directed toward health promotion and illness prevention.

IV. LCC ADMINISTRATION AND NURSING DEPARTMENT PERSONNEL

Dr. Edward Martinez	President, LCC
Vacant	Vice President of Instruction and Student Services
Mr. Morris Madrid	Chief Financial Officer
Ms. Geraldine Saavedra	Registrar
Ms. Maxine Hughes	Director of Nursing
Ms. Susan Grohman	Nursing Faculty/Sim Lab Coordinator
Ms. Kimberly Sena	Nursing Faculty
Ms. Irma Joy Shrum	Nursing Faculty
Ms. Shawntel Lujan	Nursing Faculty
Ms. Lucia Gomez-Vaughn	PT Nursing Faculty
Ms. Elaine Montañó	Office Manager
Ms. Yvonne Piña	Student Success Coach
Ms. Yvonne Piña	Student Support Specialist II

V. ACCREDITATION

The Associate of Applied Science Degree (AAS) in the Nursing Pre-Licensure Nursing Program at Luna Community College is accredited by the Accreditation Commission for Education in Nursing, Inc. (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, GA, telephone (404) 975-5000. The most recent accreditation

decision made by the ACEN Board of Commissioners for the Associate Degree nursing program is: continuing accreditation.

View the public information disclosed by the ACEN regarding this program

at <http://www.acenursing.us/accreditedprograms/programSearch.htm>

The Pre-Licensure Nursing Program at Luna Community College is approved by the New Mexico Board of Nursing, 6301 Indian School NE, Suite 710, Albuquerque, NM 87110, telephone (505) 841-8340.

VI. EDUCATIONAL OUTCOMES

A. End of Program Objectives:

The graduate will:

1. Engage in professional nursing practice that is patient-centered and culturally appropriate for individuals, families, and communities.
2. Integrate principles of quality improvement and safety into nursing practice within healthcare organizations and systems.
3. Deliver nursing care that is evidence-based across the lifespan.
4. Demonstrate leadership behaviors through the application of policies that apply to healthcare delivery.
5. Engage in effective interprofessional collaboration in the delivery of healthcare for quality patient outcomes.
6. Utilize technologies for the management of information and in the delivery of patient care.

B. Associate of Applied Science in Nursing:

Competencies	Measurement of Competency
<p><u>Level One</u></p> <p>Upon successful completion of Level One, the student will:</p> <ol style="list-style-type: none"> 1. Recognize their own values, beliefs, and attitudes related to health and wellness. 2. Recognize and identify patient safety issues and risks. 3. Introduce an evidence-based approach to their professional nursing practice across the lifespan. 4. Identify policies and procedures application to nursing practice in the healthcare delivery system. 5. Communicate to identify roles and values of the healthcare team. 6. Access information and apply to patient scenarios. 	<p>Unit exams 77.0% or better</p> <p>Simulations evaluation tool higher than 2</p> <p>Skills lab exams and skills competency check off score higher than 2</p> <p>Community clinical experiences/ evaluation tool score higher than 2</p> <p>Reflective Journal</p> <p>Teaching/communication project</p> <p>My Nursing Lab exercises</p> <p>ATI score above level 1</p> <p>Policy and procedure discovery</p> <p>Individual and Group Presentations</p>
<p><u>Level Two</u></p> <p>Upon successful completion of Level Two, the student will:</p> <ol style="list-style-type: none"> 1. Recognize and assess diverse patients' values, beliefs, and attitudes related to health. 2. Apply safety measures to well patient populations. 3. Implement evidence-based practices in care of well populations across the lifespan. 4. Adhere to policies and procedures in healthcare delivery settings. 5. Communicate with other healthcare providers to meet the needs of well patients. 	<p>Unit exams 77.0% or better</p> <p>Clinical experiences/evaluation tool score higher than a 2</p> <p>Simulations/evaluation tool score higher than 2</p> <p>Reflective Journal</p> <p>Student presentations</p> <p>ATI score above level 1</p> <p>Policy and procedure utilization in clinical setting</p>

6. Utilize informatics for well patient care.	
<p style="text-align: center;"><u>Level Three</u></p> <p>Upon successful completion of Level Three, the student will:</p> <ol style="list-style-type: none"> 1. Incorporate diverse patient values, beliefs, and attitudes into plan of care for patients with chronic illness. 2. Identify and interpret factors for improvement in patient safety and nursing practice. 3. Utilize an evidence-based practice approach to the delivery and evaluation of nursing care to chronically ill patients across the lifespan. 4. Utilize policies and procedures within the healthcare setting. 5. Participate as a member of the healthcare team in the delivery of care. 6. Utilize appropriate technology for the delivery of nursing care to chronically ill patients. 	<p>Unit exams 77.0% or better</p> <p>Clinical experiences/evaluation tool score higher than a 2</p> <p>Simulations/evaluation tool score higher than 2</p> <p>Reflective Journal</p> <p>Student presentations</p> <p>ATI score above level 1</p> <p>Case studies</p> <p>Policy and procedure utilization in clinical setting</p>
<p style="text-align: center;"><u>Level Four</u></p> <p>Upon successful completion of Level Four, the student will:</p> <ol style="list-style-type: none"> 1. Integrate diverse patients' values, beliefs, and attitudes into plan of care for patients with acute illness. 2. Interpret and analyze factors and system contributions that impact the quality and safety of nursing practice. 3. Integrate an evidence-based approach in the delivery and evaluation of nursing care to acutely ill patients across the lifespan. 4. Evaluate the use of policies and procedures within the acute care setting. 5. Effectively collaborate with the healthcare team in the delivery of patient care. 6. Integrate use of appropriate technology for the delivery of nursing care to acutely ill patients. 	<p>Unit exams 77.0% or better</p> <p>Clinical experiences/evaluation tool score higher than 2</p> <p>Simulations/evaluation tool score higher than 2</p> <p>Reflective Journal</p> <p>Student presentations</p> <p>ATI score above level 1</p> <p>Case studies</p> <p>Professional paper/policy evaluation</p> <p>Successful use of EMR</p>

C. Educational Theory

The two primary educational theories used within the program are Bloom's Taxonomy (Bloom, Engelhart, Furst, Hill, & Krathwohl, 1956) and Kolb's Theory of Experiential Learning (Kolb, 1984). Students are taught using cognitive, psychomotor and affective domains. Faculty believes that learning occurs best when presented from simple to complex and takes place in the cognitive, psychomotor and affective domains. Cognitive learning is essential for successful completion of all theory courses. The use of role play in theory courses and in the simulation lab allows for effective learning to occur. The skills lab provides demonstration and practice of psychomotor skills before they are used in the clinical setting.

Kolb's theory emphasizes the central role that experience plays in the learning process. His theory suggests a holistic perspective on learning that combines experience, perception, cognition and behavior. "Learning is the process whereby knowledge is created through the transformation of experience" (Kolb, 1984, p. 38). Experience is key to the application of theory taught in the classroom. Transforming experiences are provided to students in a variety of clinical settings, laboratory experiences and simulation activities to facilitate learning and accommodate different learning styles. Tasks that are practiced in the laboratory and clinical area are part of the concrete experience. Reflective observation makes sense of the concrete experience and abstract conceptualization, which helps students understand situations and problems; this type of observation is conducted in post-conferences, during simulation debriefings, and during observational experiences.

Bloom, B. S., Engelhart, M. D., Furst, F. J., Hill, W. H., & Krathwohl, D. R. (1956). *Taxonomy of educational objectives:*

Cognitive domain. New York: David McKay.

Kolb, D. A. (1984). *Experiential learning: Experience as the source of learning and development*. Englewood Cliffs, NJ: Prentice Hall.

D. Nursing Standards of Practice

Students are expected to behave in a professional manner, consistent with current ANA Standards of Practice (**Appendix A**). Students are responsible for using the code of ethics as the foundation for the delivery of quality, safe and competent nursing care.

VII. PROGRAM DESCRIPTION

A. Degree Plan

ASSOCIATE OF APPLIED SCIENCE (71 credits)

<u>Course Number</u>	<u>Supporting Course Title</u>	<u>Credits</u>
BIOL2210	Human Anatomy & Physiology I and Lab	4
BIOL2225	Human Anatomy & Physiology II and Lab	4
BIOL2510	Pathophysiology	4
ENGL1110	Composition I	3
ENGL1120	Composition II (LCC requirement for AAS degree) *Co-req. Level 1	3
PSYC1110	Introduction to Psychology	3
PSYC2120	Developmental Life Span	3
MATH 1350	Statistics	3
Basic Lab Science	4 hours from one of the following: BIOL1110, BIOL2610, CHEM1120, or CHEM1215	4
Total		31

Course Number	Nursing Core Course Title	Credits
NMNC1110	Introduction to Nursing Concepts	3
NMNC1135	Principles of Nursing Practice	4
NMNC1210	Health & Illness Concepts I	3
NMNC1220	Health Care Participant	3
NMNC1230	Nursing Pharmacology	3
NMNC1235	Assessment and Health Promotion	4
NMNC2310	Health & Illness Concepts II	3
NMNC2320	Professional Nursing Concepts I	3
NMNC2335	Care of Patients with Chronic Illness	4
NMNC2410	Health & Illness Concepts III	4
NMNC2435	Clinical Intensive I	4
NMNC2445	Nursing Capstone	2
	Total Credits	40
	Program total	71

B. Program of Study

<i>PRE-LICENSURE ASSOCIATE OF APPLIED SCIENCE DEGREE</i>			
<u>Course Number</u>	<u>Supporting Course Title</u>	<u>Credits</u>	<u>Semester</u>
BIOL2210	Human Anatomy & Physiology I and Lab	4	Fall
ENGL1110	Freshman Composition I	3	Fall
PSYC1110	Introduction to Psychology	3	Fall
Basic Lab Science (4cr)	Basic Lab Science- 4 hours from one of the following: BIOL1110, BIOL2610, CHEM1120, or CHEM1215	4	Fall
		Total 14	
BIOL2225	Human Anatomy & Physiology II and Lab	4	Spring
BIOL2510	Pathophysiology	4	Spring
PSYC2120	Developmental Life Span	3	Spring
ENGL1120	Freshman Composition II	3	Spring
MATH 1350	Statistics	3	Spring
	Total 17		
	Core Nursing Courses – Level 1		
NMNC1110	Introduction to Nursing Concepts	3	Fall
NMNC1135	Principles of Nursing Practice	4	Fall
	Total 7		
	Core Nursing Courses – Level 2		
NMNC1230	Nursing Pharmacology	3	Spring
NMNC1210	Health & Illness Concepts I	3	Spring
NMNC1220	Health Care Participant	3	Spring
NMNC1235	Assessment & Health Promotion	4	Spring
	Total 13		
	Core Nursing Courses – Level 3		
NMNC2310	Health & Illness Concepts II	3	Fall
NMNC2320	Professional Nursing Concepts I	3	Fall
NMNC2335	Care of Patients with Chronic Conditions	4	Fall
	Total 10		
	Core Nursing Courses – Level 4		
NMNC2410	Health & Illness Concepts III	4	Spring
NMNC2435	Clinical Intensive I	4	Spring
NMNC2445	Nursing Capstone	2	Spring
	Total 10		

VIII. PROGRESSION

Students that are eligible to progress to the next level but choose not to return for the following semester have two years to return to the program and resume, if seats are available at any NMNEC school. If students are out for longer than two years, they must reapply to any NMNEC Nursing Program and start over from Level 1.

A. Level 1

One course failure/withdrawal- dismissed from program; must apply for readmission to program. NMNEC schools will determine whether readmission is possible based on a number of variables. (E.g., course offerings, faculty availability, seat availability, etc.)

Second course failure/withdrawal- dismissed from program and may re-apply for new admission to the program after two years.

B. Levels 2, 3, and 4:

One course failure/withdrawal- can return the next time the course is offered, if seats are available at any NMNEC school.

Second course failure/withdrawal- dismissed from program and may reapply for new admission to the program after two years.

This policy applies to all nursing courses in NMNEC statewide curriculum degree plans. Course failures and withdrawals cumulate from Level 1 through Level 4 and across all NMNEC Programs.

IX. DISMISSALS

Students may be dismissed from the nursing program due to failure to meet academic standards and/or failure to meet behavioral standards as outlined in the LCC Nursing student handbook.

X. DEFERMENT OF PROGRESSION

Students in good standing in the Nursing Program may request a deferment of course progression for personal reasons. This request must be made in writing to the Director and must be approved by majority vote of the entire faculty team. Students cannot defer more than two consecutive semesters.

XI. GRADUATION REQUIREMENTS

All program requirements must be completed in order to be eligible for graduation. A grade of 77.0% or better is required for all nursing courses. Students are encouraged to meet with their advisor each semester to assure that all requirements are being met. Refer to the LCC Catalog for additional graduation requirements.

ALL graduating students MUST petition to graduate at the registrar's office by the assigned date prior to their graduation date.

XII. GENERAL POLICIES

A. Health, CPR Certification, and Immunizations

Incoming students are required to sign up with Castle Branch at www.castlebranch.com (at their own expense) and submit the following documents.

The following documents will need to be uploaded into your CastleBranch account:

1. A Physical Exam by a health care provider completed and uploaded to CastleBranch by the designated date. When change of health status occurs, an updated medical health form must be submitted to the nursing office. Students must then notify the instructor immediately of any illness, change in health status, pregnancy, or any other condition that may affect the student's health or direct client care during a clinical rotation.
2. A current cardiopulmonary resuscitation (CPR) card from the American Heart Association (AHA). The student is required to be certified in CPR through the AHA Basic Life Support Provider. If the student has successfully completed an AHA Basic Life Support course and has current certification, submit a copy of the certification card to the nursing office by the designated date on the letter of acceptance. Check with the Nursing Department for available classes. NO online CPR certification will be accepted. The student is responsible for keeping their CPR certification current.
3. A copy of your medical insurance card. LCC does not provide Health Insurance for students. It is a requirement that the student maintain a Health Insurance Policy while enrolled in a Health Occupations Program at LCC, due to the potentially hazardous nature of health care. LCC does not assume any liability for health expenses incurred due to participation in the program.

4. Immunizations: Proof of immunization is required by clinical agencies and agreed to in the Clinical Contract. All immunizations and documentation must be completed and uploaded to CastleBranch by the designated due date. If not completed, student will not be allowed to attend clinicals until the proof is produced.

Students will be able to access any submitted records through the CastleBranch Program at www.castlebranch.com.

B. Background Check and Drug Screen

1. 10-panel Drug Screen is required for entrance into the program, and at the beginning of each semester and randomly each semester: if the drug screen is positive the student will not be admitted to the program, however, if a current student's drug test is positive the procedure for substance abuse on page 21 will be followed. All drug screens are done at the student's expense.
2. Background Check is required for entrance into the program and annually thereafter from CastleBranch. Results of background checks will be reviewed on an individual basis.

C. Liability/Malpractice Insurance

The student will be required to purchase Liability/Malpractice Insurance on an annual basis prior to registration for the fall semester. Insurance from Mercer is purchased through LCC at a group rate annually. Insurance is necessary for participation in clinical experiences.

D. Exposure Prevention/Control

1. Accidental exposure

Accidental exposure is defined as accidentally being exposed to blood/body fluids through needle stick, or skin lesions/non-intact mucosal membrane of a client. Accidental exposure of a faculty member or student while in a clinical agency is treated similarly to any type of accident occurring within the agency.

Transmission-based precautions are the recommendation of the National Center for Disease Control (CDC). The terms Universal Precautions and Standard Precautions are used interchangeably. Universal/Standard Precautions are a safeguard for the client as well as for the student. As recommended by the CDC, Universal/Standard Precautions are to be used with Contact, Airborne or Droplet Categories. The student must abide by these precautions in the simulation lab and clinical agencies.

2. Management of an exposure incident

In the event that a student has an accidental exposure, the following steps are initiated:

- a. The student immediately reports the incident to the clinical instructor.
- b. The individual exposed must review and abide with the exposure policy at the institution or agency where such exposure took place.
- c. The individual exposed is responsible for any medical bills incurred as a result of exposure, i.e., lab work, vaccines, physician charges, etc.
- d. The clinical agency may require demographic data from the exposed individual for any follow-up that may be necessary.
- e. The clinical instructor will notify the director of the Nursing Program when a student has been accidentally exposed.

E. Student Confidentiality for Medical Conditions

Within the Code of Federal Regulations are statements to protect medical information and the privacy of the individual when there is no overriding need for the public to know. To mandate that a person infected with a blood-borne or any other communicable disease be required or requested to notify institutional or agency authorities, where exposure occurred, is difficult to enforce. However, individuals involved with healthcare giving services and who know they are infected with a communicable disease are ethically and legally obligated to conduct themselves responsibly in accordance with the following protective behaviors:

1. Seek medical advice.
2. Follow the Institute's guidelines when involved in direct client care, be knowledgeable about, and practice, measures to prevent transmission of the disease.

F. Fire Emergency Escape Plan (Complying with the LCC Campus Security Act, 1990)

1. Refer to LCC policy regarding fire emergency policy/procedures.
2. Exit building at a nearest exit; on the student's way out, pull fire alarm.
3. Check exiting door for heat, exit if safe, meet at the ICP (cafeteria) Parking lot.
4. Notify a LCC staff member, they will call the fire department/security/administration.

G. Code Blue - Active Shooter: (Appendix B)

H. Children or Others in the Classroom/Clinical Setting/ Simulation Setting

Under no circumstances is the student allowed to bring children, visitors or pets to class or clinical areas. Prior arrangements must be made for adequate childcare. LCC offers day care services for students' children. Information about the services is available at the Student Success Center.

I. Transportation

Most nursing courses include clinical learning experiences. The student is responsible for her/his own transportation to and from clinical sites. Depending on the program, clinical sites may be local, regional, or statewide. Travel reimbursement may be available through Area Health Education Center (AHEC). (Information available in the nursing department)

J. Telephone Calls, Smoking, and Food

1. Cell phone use in the classroom and clinical setting will be determined by the instructor if the phone is to be used for academic purposes. No personal cell phone calls or texting are allowed during class. Emergency calls will be routed to the instructor through the nursing department (505) 454-2521.
2. Smoking of any kind, including electronic cigarettes, is prohibited in all buildings on campus or in clinical sites. Designated smoking areas are posted on campus. (see website for specific locations)
3. Eating or drinking beverages is prohibited in simulation labs, computer labs and during clinical rotations except for designated area in those facilities.

K. Faculty Communication Tool

"SBAR" Method (Situation, Background, Assessment, Recommendation):

Students who have comments or concerns for the director, faculty or staff must use the "SBAR" method of communication. Students will follow the chain of command when resolving issues. Please wait for a response at each level regarding the specific concerns before moving to the next level. (Appendix C)

1. Complete SBAR form, and turn it into the nursing department.
2. SBAR form will be routed to the appropriate personnel.
3. Appropriate personnel will investigate the concern.
4. The communication form will be discussed within the department before a solution will be determined.
5. We will be in touch with you as to a time and place to discuss the findings and solutions.
6. Solutions may not be available the same day.

L. Latex Allergy Policy

Nursing students who suspect or have a confirmed latex allergy must have an evaluation of their allergy by an allergist or immunologist, resulting in a classification of irritant contact dermatitis, allergic contact dermatitis or IgE histamine mediated allergy. A note from this medical provider must be sent to the Director of the Nursing Program before clinical assignments are given.

Students with latex allergies will be required to sign a waiver, acknowledging their risk and responsibility for avoiding latex or other products whenever possible. Students who decide to continue in the Nursing Program acknowledge the above notice and agree to assume the risk and continue at their own risk.

The LCC Nursing Program will make reasonable efforts to establish and maintain a clinical laboratory as free from latex as possible. Efforts will be made to assign students with a latex allergy to clinical placements that limit latex exposure, if this information is reasonably available and can be determined. Students with a latex allergy must access the latex policy of the institution to which they are assigned, and follow said policy while in the clinical setting.

Students with latex allergy are not excused from meeting requirements of the Nursing Program. LCC Nursing Program reserves

the right to exclude the student from participation in optional experiences, including but not limited to, observations, field experiences, and community service learning experiences in which a latex free environment cannot be assured.

Students agree to allow communication of their latex allergy status to appropriate clinical agencies and clinical personnel by the LCC Nursing Program to facilitate placement and planning. It is the student's responsibility to ensure that all emergency medications prescribed are carried to the clinical/lab setting and that a medic alert bracelet is worn at all times while in these settings.

Students with other health care product(s) allergies should utilize the aforementioned process for notification, risk acknowledgement acceptance of possible risk in the clinical setting.

Latex/Allergy Procedure:

- All Students will need to fill out a latex allergy questionnaire to determine level of risk.
- Students with concerns regarding a possible Latex allergy should bring this to the attention of the clinical coordinator, course faculty, course coordinator, and Director of the Nursing Program as soon as possible.
- The Director of the Nursing Program will advise students of how to proceed with testing, documentation, and waiver processes.
- Students must notify each clinical coordinator of the latex allergy prior to the start of the semester. Students are responsible for notifying the Clinical Instructor at the beginning of the clinical experience. Clinical faculty will meet with the student to determine a plan for avoidance of allergen and for emergency management of exposure.
- This document will be updated with each new clinical placement and placed in the student's record. (**Appendix D**)

Note: all other allergies will be documented on the students Emergency notification form.

XIII. ACADEMIC POLICIES

The following guidelines have been established to assist the student in obtaining the greatest benefit of learning experiences provided through the curriculum. It is the intent of the LCC Nursing Program to prepare the student to adopt the Professional Performance Standards of Nursing. Failure to follow the guidelines listed will result in a Student Nurse Improvement Plan (SNIP).

A. Classroom Attendance/Tardiness

Consistent classroom attendance is expected for all class sessions; therefore, any absence from a class will impact the student's learning. The student is responsible for acquiring all information, handouts, and announcements for classes not attended. Absences and tardiness will result in a SNIP.

B. Exam Policy

1. Exams will be given at the beginning of class on scheduled exam days and times and are timed.
2. Revisiting questions will not be allowed, and questions will appear on the exam one at a time.
3. If an exam is missed or student arrives late for an exam, the student will receive a five (5) point deduction on the make-up exam. An alternate exam may be given.
4. On all subsequent missed exams, the student will receive a ten (10) point deduction. An alternate exam may be given. (These alternate exams may include: essay questions, fill in the blank and any other type of alternative format questions.)
5. If a student is late to a scheduled exam (attempting to log in after the exam log in window has closed), they may be allowed to take the exam with the provision of losing 5 points on the first exam and 10 points on any subsequent late exam(s) thereafter. If the instructor does not allow the student to take the exam, all previous consequences will apply.
6. If the student comes for the exam and does not stay for the class 5 points will be deducted from that exam.
7. Any make-up exams will need to be re-taken within a week (5 working days) of the missed exam, and at the specific scheduled time for make-up exams which will be defined in the individual class syllabus. If the make-up exam is not taken within the 5 working days, the student will receive a "0" for that exam. There are absolutely no re-takes on any missed exams.

8. Once a student has turned in their exam or finalized an electronic exam they will not be allowed to return into the test site to make changes or view their exam.
9. If a student needs to leave the testing area for any reason prior to finishing the exam, they must raise their hand, ask the proctor for permission to leave, and then the proctor will find a faculty or staff escort for the student. The escort will remain with the student until they return to the test area.
10. Depending on instructor's preference, upon completion of the examination, the student may be asked to leave the room until all students have completed the exam or may be asked to stay quietly seated until all students have completed the exam.
11. Quizzes missed, whether scheduled or spontaneous, will not be allowed to be made up.
12. If a student is observed to be cheating during an examination, the examination will be closed by the instructor immediately, and the student will receive a zero. Making copies of exams or purchasing exams is also considered cheating. Academic dishonesty/plagiarism will not be tolerated and is grounds for immediate or permanent suspension. [Please refer to the LCC catalog]
13. Cell phones and watches ARE NOT ALLOWED with the student in the computer labs during exams. They may be left with the proctor prior to the exam beginning.
14. ABSOLUTELY NO food or drinks ALLOWED in computer labs.
15. Students are not allowed to have any outside items with them in their examination cubical unless approved by the proctor.

Exceptions to exam point deduction and quiz retakes:

Pregnancy

If a student is pregnant, she will be allowed a maximum of two weeks maternity leave if needed. Her clinical will need to be re-scheduled (if possible, let the instructor/clinical coordinator know the due date so that clinicals are not assigned during that time; missed clinicals will need to be re-scheduled with the clinical coordinator as soon as possible). The student will be responsible to re-schedule all missed class requirements with her instructors upon return. All make-up exams will need to be completed within one week upon returning in order for the student to progress through the program.

School Closures/Government Mandates/School Sponsored Functions

If the student misses class or clinical due to school closures, school sponsored functions, and other administrative or governmental mandates they will not be penalized.

C. Grading/Evaluation

A grade of 77.0 % or higher is required for all nursing courses. **Failing grades will not be rounded up.**

If the student does not receive a passing grade in either/both the theory or the clinical component, they should refer to the Progression Policy.

Nursing Grading Scale

A= 90.0-100
B= 80.0-89.9
C= 77.0-79.9
D= 67.0-76.9
F= below 66.9

D. Extra Credit

The LCC Nursing Program does not allow extra credit assignments within courses. Students who encounter difficulties with course material are recommended to contact faculty as soon as such difficulties arise within a course. *There will be no extra credit opportunities afforded to allow students who have been unsuccessful in course assignments and exams to achieve passing scores.*

E. Dosage Calculation Policies

The dosage calculation exam will be given each semester in the clinical course. Successful completion will be measured as follows:

Level 1 NMNC 1135	90%
Level 2 NMNC 1235	95%
Level 3 NMNC 2335	90%
Level 4 NMNC 2435	95%

- The student must pass the dosage calculation exam in order to continue in the course it was given in.
- Students will be allowed three attempts to obtain a passing score.
- The dosage calculation exam must be successfully passed prior to administering medication at clinicals or simulations in Level 2, 3 and Level 4.
- If additional attempts are needed they will be scheduled by the faculty. It is the students' primary responsibility to maintain drug calculation skills throughout the program.

F. Student Success Plan and Academic Coaching

Support is available for Nursing Students, the Student Success Plan (SSP) provides specialized and mandatory support for at-risk students. All students will be assigned a mentor with whom they will have weekly meetings. Every semester, all students within the Nursing Program will be placed on the SSP. Once an average above 80% in all classes is achieved, the student will be taken off the SSP.

The Student Success Plan (SSP) consists of the following:

All students begin each semester on the SSP. The student must reach and maintain an average of 80% in any class to be removed from the SSP program.

The student will complete the following, in addition to their regularly scheduled mentor meetings with faculty:

1. Weekly meetings with the Student Success Coach to discuss study techniques and test taking strategies. These weekly appointments will need to be scheduled between the student and the Student Success Coach.
2. Weekly meeting with the Faculty in the class where the student's average is less than 80%. Areas of assistance provided in these meetings will include, one on one assistance, and clarification of course content. These weekly appointments will need to be scheduled between the student and the instructor.
3. Weekly tutoring will be required for any student on SSP. These weekly appointments will need to be scheduled between the student and the Tutor.

Student needs to be aware that meeting time slots fill up quickly and they need to be proactive in scheduling appointments in a timely manner.

Failure to abide by the above requirements will result in a SNIP.

G. Remediation

Students within the Nursing Program who achieve below an 80% on any unit exam, achieve below the benchmark on ATI, submit unsatisfactory clinical work, or perform unsatisfactorily on any graded class component will be required to complete remediation with the Student Success Coach. The purpose of remediation is to ensure student comprehension of material and promote success within the Nursing Program. To accomplish this, each plan is individualized based on the student's needs.

Once students have received their grade, it is the student's responsibility to check their email for required remediation from the Student Success Coach and complete all necessary requirements, including getting all signatures required in a timely manner. All appointments and/or arrangements should be made immediately to ensure completion by the deadline.

Failing to meet the requirements of the Student Success Plan and/or Remediation requirements as set forth by the instructor and/or Student Success Coach will result in a SNIP. (Appendices E & F)

H. Syllabus and Policy Changes

Due to unforeseen circumstances, there may be changes to the policies, procedures, syllabi and program information. These changes will be given to students in a written format for students to sign to acknowledge receipt. The signed document will be kept on file by the faculty.

XIV. CLINICAL POLICIES

The following guidelines have been established to assist the student with obtaining the greatest benefit of learning experiences provided through the curriculum and prepare students to adopt the type of conduct that is expected in the nursing workplace. It is the intent of the LCC Nursing Program to prepare the student to adopt the Professional Performance Standards of Nursing. Failure to follow the guidelines listed will result in a SNIP.

A. Clinical Description

A clinical is defined as a faculty-assigned activity taking place in and during clinical/laboratory settings and times. These may include campus laboratory, (these may take place virtually or in person) observational sites, hospital settings, community agencies, and clients' homes. The student is prohibited from practicing or carrying out activities or specialized skills which the student has not practiced with a passing score in the practice lab, and those activities which are beyond the scope of practice for a nurse in the respective level for which the student is presently training. The student is required to complete all scheduled clinical hours. The student must use universal precautions with all clients. Students are responsible for being familiar with and administering all care required by their client during clinical.

B. Clinical/Lab/Simulation Attendance

Attendance at all lab, clinicals, and simulations is mandatory. Missing a clinical will result in a SNIP.

The student is encouraged to allow extra travel time for unforeseen circumstances. If the student arrives late to clinicals/lab: the student may be sent home and receive an absence for the day.

Missed clinicals must be re-scheduled with the clinical instructor.

Students who need to change clinical dates with another student due to extenuating circumstances must request the change in writing using the Clinical Change Form and turn it into the clinical coordinator prior to the clinical day. Clinical grades are included within the didactic part of the class grade. Failure to complete the required objectives will constitute a failing grade for the clinical component resulting in the student failing the course. **The student must pass both the didactic and clinical sections to receive a passing grade for the course.**

The student is required to report to clinical 15 minutes prior to the scheduled clinical start time. In the event of an illness, an accident, death in the immediate family, or any other justifiable emergency, the student is responsible for contacting the clinical instructor no later than one hour or as soon as possible prior to the time he/she is scheduled to be at the clinical agency/lab.

Other behaviors which will result in a SNIP include: tardiness, lack of preparation for the day, failure to meet the dress code regulations, and/or disruptive conduct. The student may be removed from the clinical experience and sent home at the instructor's discretion when there are safety concerns.

A clinical may be canceled by the clinical instructor due to an emergency or inclement weather using the Nursing Department Clinical Call Tree. The student will be notified of the cancellation by their instructor and re-scheduling will be done by the clinical instructor. Because the service area is widespread, due to the rural nature of the communities served by the college, conditions may vary within those areas. The student is encouraged to make individual judgment decisions regarding travel. Use extreme caution and do not travel if conditions are serious.

- Stay informed concerning weather conditions. All students must sign up for RAVE through LCC for college alerts. Local radio and television stations announce weather forecasts, road conditions, and school closures.

- When a snow day is declared by LCC, the policy is that all in person clinicals are cancelled, however a virtual clinical may be substituted.
- **If a two-hour delay is announced the policy is that clinicals will start at 10 a.m. and end as scheduled.**

C. Clinical Appearance Guidelines

Consequences for failure to abide by any of the following clinical appearance guidelines will result in a SNIP.

The LCC Nursing Uniform is required to be worn for all class, lab, clinical, or simulation.

Proper clinical attire, personal hygiene, and cleanliness are required. The instructor will send the student home if the uniform policy is not followed. Any presence in a hospital or other clinical setting requires a professional appearance and valid student identification as required by the clinical facility.

***Additional uniform protocols may be required in some clinical settings such as surgery, obstetrics, pediatrics, and mental health.

1. **Uniform:** All LCC student nurse uniforms will be a teal top with teal pants with the LCC Nursing School patch placed on the left upper arm. Uniforms and patches must be purchased through the LCC bookstore store so that the color remains consistent. Uniforms should fit properly (no sagging or tightfitting) and be clean and free of wrinkles. The official LCC student identification/badge is required to be attached to scrub tops at all times. The students must wear predominantly black shoes with black laces. If an undershirt is worn under the scrub top, it must be black, this is to include sleeves to cover tattoos. Black Scrub jacket or lab coat may be worn, if the jacket is deemed inappropriate by instructor, student will be asked to remove the jacket.
Student will not alter the school uniform in anyway.
2. **Fingernails:** Natural nails must be clean, trimmed, smooth and neat and not interfere with safe client care. NO nail polish is permitted including clear nail polish. Artificial nails are prohibited due to danger of transmitting infection.
3. **Jewelry:** The only jewelry permitted other than a watch with a second hand (NO SMART WATCHES ARE ALLOWED), is a medical alert bracelet or necklace, or religious jewelry. Accessory jewelry for body piercings or modification is not permitted. You will be asked to remove all jewelry prior to starting your clinical experience. Any visual dermals must be covered.
4. **Hair:** Hair that is shoulder length or longer must be tied back with a plain accessory including bangs that interfere with vision. Hair should be kept from falling forward onto clients or bedside equipment. Male students must have neatly groomed facial hair (beards, mustaches, and side burns) beards and sideburns should not extend below the chin to assure proper mask fit. Extreme hair colors are not permitted.
5. **Make-Up:** Facial makeup must be kept simple. Contacts must be clear or natural colored. **No false eye lashes are allowed.**
6. **Tattoos:** Any visible tattoos must be completely covered during the clinical experience.
7. **Equipment:** A stethoscope, bandage scissors, black pen (not erasable), black sharpie, watch with second hand (NO SMART WATCHES ARE ALLOWED), and pen light are required.
8. **Odors:** Students must maintain proper hygiene and control offensive body odors; use of perfumes/cologne and scented lotions are discouraged. Smoking is discouraged prior to clinical or during clinical breaks as cigarette odor may remain on clothing and may be offensive to the client.

D. Clinical Expectations

Consequences for failure to abide by any of the following clinical expectations will result in a SNIP.

The student is required to obtain a schedule of his/her clinical assignment based on individual course requirements.

1. Student is not allowed to reschedule their own missed clinical without prior approval from clinical coordinator. Special circumstances will be detailed by course instructor for out-of-town clinicals.
2. Adequate preparation is essential, including but not limited to: review of client data, medications, procedures, family dynamics, etc. Specific requirements will be outlined in each course syllabus.
3. The student must be prepared to administer medications at the same standard as licensed personnel.
4. **The student must maintain strict confidentiality in handling client information. No patient names, initials or other identifying information should be placed on paperwork.**

5. The student must demonstrate a professional demeanor. This includes no chewing gum, no loud conversation at the nurse's desk, and maintaining respect for the students' fellow classmates and staff members. Students should **always be willing to help** when needed.
6. The student must not leave a clinical setting without first directly notifying the instructor or clinical preceptor. Having another student notify the instructor or clinical preceptor is not acceptable.
7. If the student is unprepared, lacks professional appearance, or demonstrates unsafe practice, they will be dismissed from the clinical and marked absent for that clinical. The student will be responsible for re-scheduling the make-up clinical with the clinical coordinator.
8. If the student is ill, she/he must notify the instructor or a no call – no show will be given. A student who becomes ill during the clinical day may be sent home at the discretion of the instructor.
9. The student will not be allowed to take phone or verbal physician orders for medications, treatments and procedures. All physician orders must be taken and noted by a primary nurse in the clinical setting before the student can carry out those orders. Those orders will then be carried out under the direction and supervision of the clinical instructor.
10. Students will not be allowed to act as a legal witness to a consent form or permit.
11. Since clinical areas pose a risk of exposure to communicable diseases, students who are in their first trimester of pregnancy are required to obtain a physician's written statement of release before being assigned to that clinical area.
12. Students will not be allowed to care for clients that are in airborne precautions unless they have been fitted with a high particulate (N-95) filter mask, must show proof.
13. Students must follow the facilities policies for smoking on site.

XV. STUDENT CONDUCT

A. Disruptive Student Conduct

Nursing students are expected to maintain high moral and ethical standards of conduct at all times. Students should behave in a manner that reflects positively upon themselves, LCC, and the Nursing Profession, and are responsible for complying with all policies and regulations of LCC and the laws of the State of New Mexico. Disruption of classes or other school functions, disregard for the safety and welfare of other students or personnel on or off campus, or non-compliance with the institution's policies may justify disciplinary action, including administrative withdrawal or suspension. Disruptive conduct will not be tolerated in the Nursing Department, classrooms, labs, or clinical areas. The nursing department will follow the policy and procedure as outlined in the LCC Student Handbook (p.49). Additionally, the student will receive a SNIP.

B. Student Incivility

Students are required to behave in a responsible, adult, mature manner while attending classes/clinicals whether on-site or on-line. The Nursing Department will not tolerate any type of student incivility. Students who engage in behavior that is: disrespectful, abusive, intimidating, disorderly or dangerous, will receive the consequences outlined in the LCC Policy for Prohibited Activities in the Student Hand book (p.49). Additionally, the student will receive a SNIP. This behavior will not be tolerated against any faculty, staff member, or fellow student(s). **The person leaving the program under this disciplinary action will no longer be able to apply for re-admission into the Nursing Program.**

Some examples of behavior that are unacceptable (**non-inclusive**):

- Unprofessional postings (YouTube, Facebook, or other media)
- Posting of official Nursing Department documents containing LCC letterhead on the internet
- Physical assault (hitting, slapping, spitting, etc.)
- Verbal abuse (cursing, yelling, name calling, etc.)
- Intimidating/bullying (making someone the butt of jokes, verbally/physically threatening, etc.)
- Unsafe behavior in class/clinicals (not following unit protocol, not following clinical instructor's directions, etc.)
- Bringing items to class that include but not limited to stun gun, knives, guns, etc.

C. Social Media Expectations

Students in the LCC Nursing Program are expected to adhere to the ANA's principles for social networking. Failure to do so will result in a SNIP.

The ANA Principles are as follows:

1. Nurses must not transmit or place online individually identifiable patient information.
2. Nurses must observe ethically prescribed professional patient-nurse boundaries.
3. Nurses should understand that patients, colleagues, organizations, and employers may view postings.
4. Nurses should take advantage of privacy settings and seek to separate personal and professional information online.
5. Nurses should bring content that could harm a patient's privacy, rights, or welfare to the attention of appropriate authorities.
6. Nurses should participate in developing organizational policies governing online conduct.

D. Student Suspected of Impairment

The Nursing Program has adopted the following policy statement and procedures for dealing with situations of actual or suspected student chemical impairment.

The LCC Student Handbook policy on Drug-Free Awareness (p.65) is enforced by the Nursing Department. The Nursing Department requires additional policies, due to the serious nature of the courses and clinical expectations. To fulfill the provision of safe, effective, and supportive care, the student must be free of any substance (regardless of whether the use of the substance is legal or illegal), which may impair the student's ability to make sound judgment decisions, whether in the clinical, lab, or classroom. Impairment, or possible impairment of clinical judgment places the safety of clients, students, faculty, and the general public at unacceptable risk.

In the event that an instructor suspects that a student is under the influence of a substance that is prescribed or not prescribed that impairs or could impair clinical judgment, the instructor will implement the following steps:

1. Remove the student immediately from the lab, clinical, or classroom to a private area.
2. Inform the student of the observed behavior or signs.
3. Observed behavior may include but not be limited to the following signs: disheveled appearance, blood shot eyes, inappropriate language/behavior. A Suspicious Behavior Form must be completed and signed by the instructor. If the student refuses or is unable to sign the form, the instructor will document the reason given by the student for not signing the form. (**Appendix G**)
4. Document any witnesses to the behavior and actions initiated and request a witness signature on the form.
5. As soon as possible, contact the Director of the Nursing Program of the situation and actions taken.
6. The student must have a drug screen performed as soon as documentation on the behavior status has been completed. A urine drug screen and a blood alcohol screen and/or serum alcohol test with proper laboratory identification and procedure by a licensed medical or scientific laboratory to complete this type of testing must be conducted. The student must arrange to have someone transport him/ her to the laboratory facility and home.
7. The instructor will provide the student with the required referral form for the specific blood or urine drug screening with proper chain of custody. If the results are positive, the student may request a re-test of the same sample at another properly licensed laboratory. Results of the test and contents of the suspicious behavior form will remain confidential unless required by law. The fees for testing will be the responsibility of the student. (**Appendix H**)
8. When chemical influence has been confirmed, the student must enter into a "Student Wellness Agreement" (**Appendix I**) for the purpose of professional evaluation of chemical dependency status and determination of a treatment plan. The terms of the contract and academic consequences resulting from chemical dependency are discussed. The student will then sign the contract, agreeing to the terms and acknowledging understanding of the contract and academic consequences resulting thereof.
9. Due to the serious nature of the program, the student will be placed on academic and clinical suspension until the situation is resolved by the student obtaining, either a negative drug test, or a written recommendation from a Licensed Chemical Counselor.
10. The Academic consequences resulting from the implementation of the Student Wellness Contract is that;

Participation in clinical and classroom nursing courses will not be permitted until the terms of the contract are fulfilled. A semester grade of an “I” (Incomplete), “W” (Withdrawal) or “F” (Failing) may be assigned, depending on factors such amount of course work completed to date, ability of the student to complete the requirements, and deadline for withdrawing from a course.

11. The student will be required to obtain random drug and alcohol screenings during the remainder of the Nursing Program.
12. If subsequent chemical impairment occurs following these procedures, the student will be terminated from the LCC Nursing Program.

E. Client Confidentiality

The Privacy Rule of the Health Insurance Portability and Accountability Act (HIPAA) protects all individually-identifiable health-related information pertaining to individuals. Nursing students will have access to protected information during clinical experiences and may **only** discuss cases in confidential conferences with faculty and other students. They may not discuss this information with others outside of the activities of the Nursing Program. **Any such breach of privacy shall be considered a breach of client confidentiality and constitutes grounds for immediate dismissal from the LCC Nursing Program.** Students will sign a Confidentiality Agreement provided by the clinical agencies which will remain in the student’s file for the duration of the program.

F. Academic Honesty and Integrity

The program requires that the student maintains honesty and integrity in all course work and in the clinical/simulation aspects of the program. Honesty is crucial in the nursing profession. Any observed cheating will be documented, and the student will receive a “0” on the material being tested. In addition, this behavior may be grounds for dismissal from the program. Refer to the LCC Student Handbook policy regarding academic honesty and integrity (p. 46) for additional information.

G. Plagiarism

The program requires that the student adhere to the LCC policy regarding plagiarism. The Nursing Program may use a plagiarism checker to confirm any suspicion in papers. If the student submits work, which has been plagiarized, the student will receive a “0” on the work submitted in addition to possible termination from the program. Refer to the LCC Student Handbook policy regarding academic honesty and integrity (p. 46) for additional information.

H. Student Nurse Improvement Plan (SNIP)

Failure to abide by the policies in this handbook will result in being placed on a SNIP. Failure to comply with a SNIP may result in further discipline up to and including dismissal from the program.

XVI. APPEAL PROCESS

To appeal a decision the student must follow the following process:

1. Submit an Appeal form (Appendix J).
2. Submit a letter of request, and performance improvement plan, if indicated.
3. Meet with the Appeal Committee made up of a majority of the faculty and staff in the Nursing Program including the Director.
4. Appeal Committee decisions will be rendered within 48 hours
- 5.

XVII. GRIEVANCE PROCESS

LCC has established procedures for initiating a grievance process, which is available in the LCC Student Handbook p.66. A complaint or grievance must be handled following the chain of command:

- Point of Origin
- Department/Academic Director
- LCC Student Success Center Director (File a formal grievance)

XVIII. APPENDICES

Appendix A: American Nurses Association (ANA) Code of Ethics

ANA Code of Ethics

Provision 1

The nurse practices with compassion and respect for the inherent dignity, worth, and unique attributes of every person.

Provision 2

The nurse's primary commitment is to the patient, whether an individual, family, group, community, or population.

Provision 3

The nurse promotes, advocates for, and protects the rights, health, and safety of the patient.

Provision 4

The nurse has authority, accountability, and responsibility for nursing practice; makes decisions; and takes action consistent with the obligation to promote health and to provide optimal care.

Provision 5

The nurse owes the same duties to self as to others, including the responsibility to promote health and safety, preserve wholeness of character and integrity, maintain competence, and continue personal and professional growth.

Provision 6

The nurse, through individual and collective effort, establishes, maintains, and improves the ethical environment of the work setting and conditions of employment that are conducive to safe, quality health care.

Provision 7

The nurse, in all roles and settings, advances the profession through research and scholarly inquiry, professional standards development, and the generation of both nursing and health policy.

Provision 8

The nurse collaborates with other health professionals and the public to protect human rights, promote health diplomacy, and reduce health disparities.

Provision 9

The profession of nursing, collectively through its professional organizations, must articulate nursing values, maintain the integrity of the profession, and integrate principle of social justice into nursing and health policy.

Appendix B: Code Blue - Active Shooter Guidelines

Luna Community College
Life Safety and Security
366 Luna Dr.
505-454-5334
mgriego@luna.edu
www.luna.edu

Luna Community College Emergency Guidelines for Active Shooter Incidents

- **If Possible:**
 - **Exit** - the building or area immediately
 - **Notify** - others you may encounter of the danger
 - **Call** - for help by dialing 911 from any telephone
 - **Inform** – the emergency services dispatcher of the following:
 - Tell them there is an emergency
 - The location of the incident
 - What is happening
 - How many people are involved (Shooters and Victims)
 - Your name, location and phone number
 - The dispatcher may ask you to stay on the line until officers are on scene
- If you cannot safely exit the building, the following are recommended:
 - **GET** to a room or office as far away from the incident as possible and lock the door
 - **COVER** any door windows or windows facing the hallway
 - **KEEP QUIET** and **DO NOT** answer the door
 - **CALL 911** and let the emergency services dispatcher know what is happening
 - Tell them there is an **“EMERGENCY”**
 - The **LOCATION** of the incident
 - **WHAT** is Happening
 - How many people are involved (Shooters and Victims)
 - Your name, location and phone number
 - **STAY PUT** until police get to you, unless the level of danger is increasing
 - **LOOK** for means of escape **FIGHT or FLIGHT**
 - **STAY OFF** the phone so the dispatcher may contact you with information

Please be aware that if you are locked in an office or classroom, police officers may take quite some time to get to you. They are securing the building. The fact that you do not hear or see officers right away means that you are away from the immediate threat. Once rescued, follow the police officers' directives as they guide you to safety.

Appendix C: SBAR Form

Student Communication Form

This form has been designed to provide you with an opportunity to clearly communicate with the faculty and staff in the Nursing Department. Please answer the following questions to assist you with describing your comments/concerns. After you have completed the form, please give to Elaine Montano and she will provide a copy to the appropriate individual.

1. Your name: _____ Date: _____
2. Who do you need to talk with/to: _____
3. Your phone number: _____ Call: _____ Text: _____
Level of Urgency: ☐ Urgent (within 24 hours) ☐ Not Urgent (within a week)
4. **Situation:** Please describe the current situation that has warranted this communication form.
5. **Background:** Please describe the relevant background information specific to this situation or circumstance.
6. **Assessment:** This is your opportunity to offer your analysis of the problem (determine the essential features and their relations).
7. **Request or Recommendations:** Please describe what you would like to happen or what would help to resolve the situation.

(Faculty/Staff area only):

8. **Solution:**

Date: _____

Student's Signature: _____ Faculty/Staff Signature: _____

*When possible please utilize faculty's office hours. Please be advised faculty may not be able to respond to your request within 24 hours due to being out of the office, in clinicals, or in class.

Appendix D: Latex Allergy Questionnaire

LUNA COMMUNITY COLLEGE Department of Nursing Latex Questionnaire

1. Have you ever been diagnosed as having a latex allergy?

Yes _____ No _____

2. Do you have any food allergies such as bananas, kiwi?

Yes _____ No _____

If yes, please list: _____

3. Have you ever had red hands, a rash or itching after using latex gloves?

Yes _____ No _____

4. Have you ever had the following allergic symptoms after caring for patients in clinical or simulation?

Watery Eyes, Itching, Headache, Wheezing, Eye or Sinus Irritation, Hives, Shortness of Breath, Coughing

Yes _____ No _____ *(If yes, circle symptoms you have experienced.)*

5. Have you ever experienced swollen eyes or lips after blowing up a balloon?

Yes _____ No _____

6. Have you ever had any unusual dermatological reactions after a dental or gynecologic exam?

Yes _____ No _____

7. Do you have a history of asthma, atopic dermatitis, eczema or multiple allergies?

Yes _____ No _____

8. Have you exhibited any dermatological reactions when your skin comes in contact with latex or latex products?

Yes _____ No _____

9. Have you remained free of allergic symptoms during clinicals or simulated lab experiences including skills check offs?

Yes _____ No _____

10. Do you have any history of spina bifida or multiple allergies?

Yes _____ No _____

LUNA COMMUNITY COLLEGE
Department of Nursing
2021-2022
Academic Remediation Requirements

Students within the Nursing Program who achieve below an 80% on any unit exam, achieve below the benchmark on ATI, submit unsatisfactory clinical work, or perform unsatisfactorily on any graded class component will be placed on Academic Remediation with the Student Success Coach. The purpose of Academic Remediation is to ensure student comprehension of material and promote success within the Nursing field. To accomplish this, each plan is individualized based on the student's needs.

Once students have received their grade, it is the student's responsibility to check their email for a Remediation Form from the Student Success Coach and complete all necessary requirements within the Remediation Form, including getting all signatures required in a timely manner, in order to progress in the program. All appointments and/or arrangements should be made immediately to ensure completion by the deadline.

Students have **a week from the day their Remediation Form is sent** to complete the entire process. If the due date lands on a holiday, the due date will be the following day the campus is opened. Remediation forms will be sent out on Fridays by 4 p.m. and will be due by the following Friday by 4 p.m. Failing to meet the deadlines or failure to submit the assigned Remediation will result in generation of a SNIP.

The following is the Remediation process:

1. The grade is posted.
2. The required Remediation Plan is sent to the Student Success Coach by the instructor on or before Friday.
3. The students will receive their Remediation Form on Friday through their student email, a read receipt is required by the Student Success Coach. If there are questions about the Remediation, it is the student's responsibility to contact the Student Success Coach as soon as the question arises.
4. Students must complete the plan and get all required signatures (tutor, instructor, etc.) before the following Friday at 4 p.m. Plan accordingly.
5. Once ALL the assigned tasks are completed, the student must meet with the Student Success Coach to go over the Remediation before the deadline of Friday at 4 p.m.

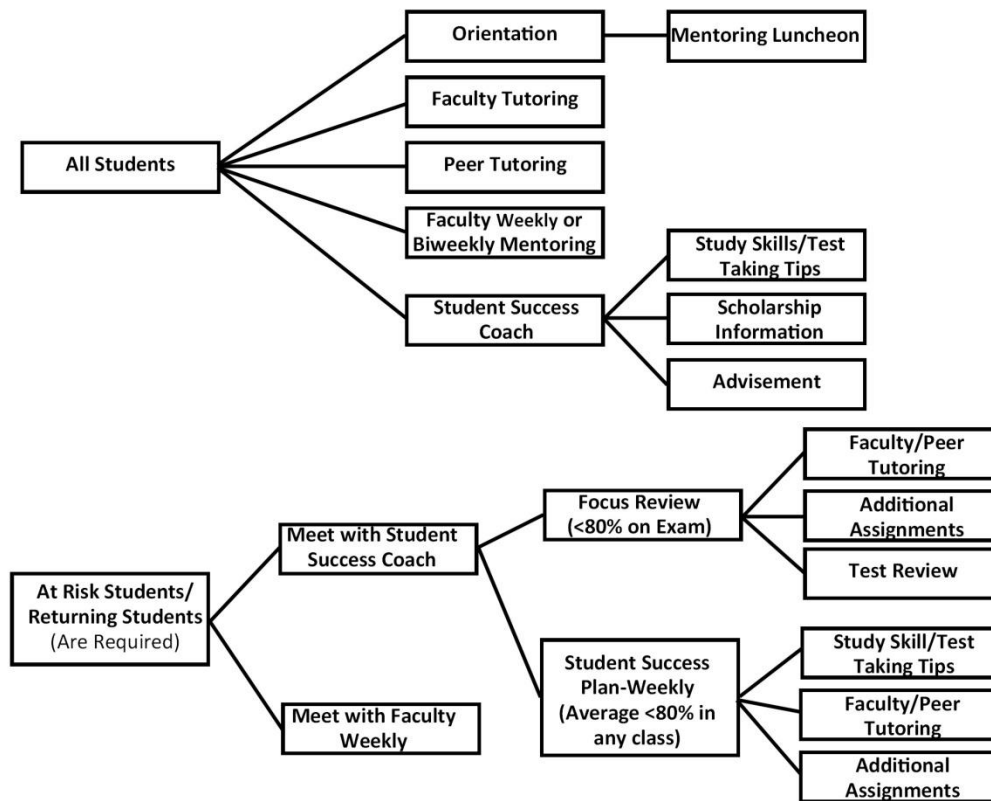

(The student is responsible for meeting with the Student Success Coach via phone or e-mail if they will not be on campus to turn in their Remediation, the same timeline mentioned above still applies and students must turn in a hard copy upon their return, arrangements must be made with the Student Success Coach prior to this option being allowed).

Students are not to leave any completed Remediation in the instructor's or Student Success Coach's mailbox or office and must be handed directly to the Student Success Coach before the timeline is up. The Remediation will not be accepted unless it is physically handed to the Student Success Coach. All completed assigned Remediation Forms are kept in the student's file. The student must give themselves enough time to be able to sit down with the Student Success Coach and discuss the completed Remediation before the 4 pm deadline.

If the student wishes to go over any exams or quizzes, the student must fill out an SBAR and make an appointment to meet with their instructor during the instructor's office hours.

Appendix I: Student Wellness Agreement

LUNA COMMUNITY COLLEGE Department of Nursing

Student Wellness Agreement

By entering into the following agreement:

_____ I understand and agree that I will receive a comprehensive substance abuse evaluation conducted by a Certified Drug and Alcohol Counselor, or a Licensed Chemical Dependence Counselor, selected from the approved list of accredited agencies provided to me by the Director of Nursing.

_____ I understand and agree that the payment of the evaluation, treatment, and follow-up care will be my responsibility.

_____ I understand and agree to provide the Director of Nursing, with either, a clearance from the Licensed Counselor or a negative drug and/or alcohol test prior to re-entering the Nursing Program.

_____ I have also been informed that a written request for reinstatement and sobriety commitment agreement must be completed prior to reentry into the program.

_____ I understand and agree that a grade of "I" (Incomplete), "F" (Failure) or "W" (Withdrawal) will be earned for nursing courses interrupted by my treatment, depending on the circumstances.

_____ I understand and agree that if I do not complete the treatment program successfully, I will be administratively dismissed from the Nursing Program.

_____ I understand and agree to submit to random drug and or alcohol testing, as required by the Director of Nursing.

_____ I understand and agree that any subsequent positive drug or alcohol test will result in dismissal from the Nursing Program.
