## GENERAL STUDIES

### Associate of General Studies Degree

#### Minimum of 60 Credit Hours

#### Program Goals

This flexible program is available for those who wish to tailor an associate degree to their own specific educational needs. The program will provide a variety of educational experiences and career opportunities. The program offers students a choice of general education core and electives.

There are two different goals or path that a student can take if this degree is their declared major. It is important for the student to use care in course selection.

- If the primary goal is to transfer, the student must learn in advance of the particular requirements of the intended university.
- If the primary goal involves occupational skills or personal growth, the student should consult with an LCC advisor before selecting courses.

#### Graduates of the program will:

- Possess the values, collaboration skills, standards, and ethical judgment required for personal and professional interaction.
- The ability to express ideas and share knowledge in a clear, focused, and organized manner.
- The ability to analyze, synthesize, and evaluate information in a logical and coherent manner.
- Examine a concept in different contexts and from independent perspectives.
- Technical Skills: theoretical and applied knowledge for career entry and continued professional development and/or transfer to a four-year university.
- The application of strategies, resources, and attitudes to find solutions that effect society.

2015/18 Curriculum Profile

### Student Graduation (Three-Year Annual Trend)

2015/2016	2016/2017	2017/18
35	7	14

### Synopsis of Significant Findings

There has been a steady decline in enrollment in the last three years in the General Studies Degree Major. There is a concern that the value of this degree is to transfer to a four-year university. We have no way of knowing how many graduates transfer or how many go into the workforce.

### Program Improvement Plans Implemented or In-Progress

Through much discussion at the department and institutional level, the curriculum committee was presented with a rationale for placing this degree in "suspension" status. The only value of the degree is to transfer to a four-year university. The committee was shown that the Liberal Arts program was more amicable for the purpose of transfer allowing students to have a program with specific requirements and electives that would allow them to have all they need to enter a university with the first two years of study completed. The curriculum committee voted to place the General Studies program in suspension commencing with the new catalog.

### Advisory Committee Work

There are no committees established.

### Student Advisement by Semester

Get Advisement report from advisors and gather essential and relevant (program) info. for this section.

### Yearly Return on Investment

Costs for instruction are listed by course.

**Alumni Surveys**

There are no alumni surveys.

**Program Learning Assessment Plan (Weave)**

Appendix B provides the program assessment of learning plan created by the faculty.

**Student Alumni**

This department has no data on alumni.

## Curriculum Committee Work (Link)

All courses in this program are aligned with NM articulation agreements

### Final Program Approvals (Board of trustees) approvals to move program forward

Students are being advised to major in Liberal Arts as the General Studies degree has been placed in suspension by the Curriculum Committee. The board has not been presented with this request at this time.

### Accreditation

As of yet no accreditation program has been established.

### Evaluation of the Program

Through much discussion within the Humanities Department and with all other departments on campus, the decision was made to make the Liberal Arts AA the main degree of the department and to suspend the General Studies degree. We hope to grow the Liberal Arts degree to accommodate all the students that were formally looking at earning General Studies' Degree.
