

# Community celebration Saturday in Las Vegas

Members of Team Luna walk in the Las Vegas Fourth of July parade this past summer. The college's students and employees are invited to participate in the inaugural City of Las Vegas Community Celebration walking parade this coming Saturday, Oct. 23, starting at 12:30 p.m. The parade route runs from Carnegie Library to Bridge St.

Luna students and employees have a great opportunity to show school spirit and participate in the City of Las Vegas Community Celebration walking parade scheduled at 12:30 p.m. on Saturday, Oct. 23.

The parade will begin at Carnegie Library (500 National Ave.) and culminate at Bridge St. From there, individuals can walk to Melody Park on the campus of New Mexico Highlands University, where Highlands will be hosting a matanza, also on that day. A matanza is a Hispanic cultural event that center

around a slow roast of pork in an underground pit.

Each of the first 100 Luna students and employees who shows up to walk in the parade will get a ticket to eat at the matanza. Tickets will be given out just prior to the parade.

Luna is a member of Vecinos Juntos, an educational partnership group led by Las Vegas Mayor Louie Trujillo and consisting of Luna, NMHU, West Las Vegas Schools and Las Vegas City Schools and the United World College.

## Trunk or Treat

In addition, Luna's student senate and softball team will be participating in the City of Las Vegas' Trunk or Treat on Sunday, Oct. 31. The event will take place from 3 to 8 p.m. at the old Safeway parking lot on Douglas Avenue, across from Dick's.

If you would like to donate a bag of candy, please drop it off at Sandra Rivera's office in the human resources department or at the humanities building.

## Cutting edge repair technology

Luna students Juan Montoya and Jasmine Park utilize the Auto Collision Repair program's state-of-the-art nitrogen plastic welding repair station. Luna's program is the only ASE/NATEF accredited training program of its kind in New Mexico. "We strive to offer the most up-to-date equipment and training available," said instructor Anthony Baca. "This plastic repair station, along with an aluminum repair station, was purchased through New Mexico's capital outlay funding. We are very appreciative to all the legislators who made this possible. Thank you for investing in the future of our students."
